Dear Fellow Cattlemen,

On behalf of Harker Simmentals and the Field of Dreams team, we would like to welcome you to the 2008 Field of Dreams Sale.

In our fourth year of hosting this event, we hope that you will come and enjoy Hoosier Hospitality at its finest. Make sure you attend the presale social on Saturday evening and then enjoy more great food and hospitality on sale day, September 14th.

We have diligently been working on improving our genetic base while striving for continuous improvement to help project both our customers and the breed into a higher standard in the future.

We feel this year's offering is more exciting than ever. As you will see, there are time-tested and proven genetics along with new and exciting cow families for any cowman and showman.

We are located just two hours from the Design In Mind Sale and 1 ½ hours from Silver Towne Farms. Along with being located eight miles east of the Exit 76 Antique Mall and the Edinburgh Outlet Mall just off of I-65. Please make it a Simmental weekend and join us for a day of good food, good friends and good cattle!

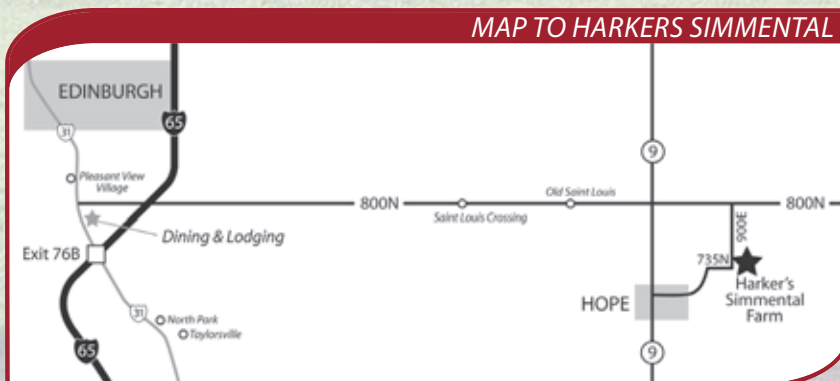

Also, attention all juniors! The 2009 AJSA Eastern Regional Classic is tentatively scheduled to be held in Columbus, Indiana and the 2009 AJSA Classic will be held in Coldwater, Michigan. Now is your chance to purchase a purebred or percentage Simmental female and take part in two events!

Please feel free to call any of the Field of Dreams team members or our sale management, Eberspacher Enterprises for more information. See you on September 14th!

The Harker Family
John, Barbara & Ben
Danny, Jill, Luke & Chase

ASA#2433708 **DbI. Polled Black 1/2 SM 1/2 AN** Tattoo: U101
BD: 1-2-08 Adj. BW: 68 ET

When we decided to flush Miss Power Drive 61M to an Angus bull, MC2500 was the logical choice due to his extreme muscling and extra eye appeal. Rae has proven we made the right breeding decision. Phenotypically, she is as nice as they come and her EPDs are proof of what the future holds. Look her up September 14th, as she is one of the top half-blood females.

When you analyze this female, the adjectives class, style and grace come to mind. This sweet fronted, three-quarterblood Navigator daughter is unbelievable, extremely thick, deep and broody. She should be very competitive in the percentage classes, so take her home and have some fun showing her instead of showing against her.

DRAKE SUMMER SISTER
NICHOLS LEGACY G151
MISS LEGACY P-60
MISS CRAFTSMAN M-60

There is a lot of unique things about Ms. Hot Stuff. Her mother is moderate framed, easy doing cow that always produces a good one. Again, she produced a great one! She is heavy muscled, very attractive and sound. The Voyager bull is making his mark in the Simmental breed. He is producing calves like Ms Hot Stuff that are very eye-appealing with great EPDs, along with her great personality she will make a great show heifer as well as a front pasture cow.

Selling choice of pregnancies out of the notorious Hooks Karrie 47K cow we co-own with Triple C Farms. Karrie's history speaks for itself. Being the dam of the ever so popular Triple C Invasion R47K, the sky is the limit with your pick. As we all know, cow families are critical to any successful operation. With today's cattle market demanding quality yield and grade, and with the costs of feed, superior genetics are a must.

Whether you are after purebred or halfblood, you can't lose. As a bonus, the recip are young, quality heifers and Angus cows. **Choice of two of three pregnancies will sell sired by SVF Starpower S802, Triple C Explorer P27H or BC Marathon 7022.**

TICES MISS ZANY

IC ZIGGY L10

This great Power Drive daughter should have been named "Simply Awesome". She was at the top of her class for Kaitlyn Tice every time shown as a heifer and then as a cow/calf pair. When the Tice family sold their herd, Chip called us and asked us to buy her. We bought her sight unseen over the phone. We had seen her calves and that

was enough for us. She is a truly incredible cow. She now has a Voyager calf at side that is second to none, and we took her to what we feel is the future of the Simmental breed and that is the flush to BMR Explorer. When we saw Explorer at the North American we were extremely impressed. He was such a complete package, and we purchased him. He has won his class at N.A.I.L.E. and Denver with his best yet to come! With feed costs on the rise, Explorer is that easy fleshing, moderate, super sound bull that will produce what the cattle industry needs. Selling three embryos guaranteeing one pregnancy if work in done by AETA certified embryologist and documented.

Breeder: D&D Land & Cattle Co.

WHSP OAKS AMAZED BY YOU
PVF DIGITAL DOLL

725T is the only Dominique female we had in 2007. Now that we see her as a bred, we wished we had more. Going back to our Digital Doll cow family, 725T has an extremely long spine with a tremendous amount of rib. I cannot wait to see her Star Power calf. Talk about power.

EPD proof alone could make this female a feature lot in many sales. 747T ranks in the top 15% for nine traits. Her ancestry earned this proof year in and year out on fescue and limited management. Did we mention her sound skeleton, excellent foot design, soft look with the right amount of rib and body to make a top notch brood cow?

Victory Field, Indianapolis, Indiana, has been ordained as "the best minor league ballpark in America" by Sports Illustrated.

Victory Field is home to the Indianapolis Indians, the AAA affiliate of the Pittsburgh Pirates. The field provide great views of the Indianapolis skyline. Among the park's greatest assets are it's 2,000 seats on the lawn, a favorite place for families. The stadium can accomodate crowds of more than 15,000—hefty for a minor league team. Opened in 1996, Victory Field has set new standards for minor league teams.

It takes MORE to be a winner!

The ACCO Showmaster® team understands the hard work and dedication it takes to compete. We also understand nutrition. That combination has helped thousands of winners "Experience Winning"™ for over 50 years.

Our team is committed to helping new and seasoned exhibitors alike with understanding how excellent nutrition can help show animals reach their potential. Along the way, we help to build the winning spirit and attitude in young people.

Alpha "Cash Back" Program

A special incentive program for first time show participants who use ACCO Showmaster® products.

The Alpha Program is specifically designed to help first time 4-H and FFA show participants get off on the right foot with ACCO Showmaster® premium show feeds. That's why we give you one dollar back for every bag of Showmaster® premium show feed that you purchase – right up to the Alpha Program limit (see table). Save your feed purchase receipts that show the number of Showmaster® bags purchased and complete the ACCO Showmaster® Alpha Program Application.

Turkeys	20
Rabbits	10
Roasters/Capons	20

Cash-for-Champions® Award Program

We like to win – and we know you do too!

The Cash-for-Champions® Award Program is our way of encouraging excellence and rewarding outstanding achievement in the show ring. Designed exclusively for active participants in 4-H and FFA, the Cash-for-Champions® Award program is another way you win with Showmaster® premium show feeds. So, if you are a recent winner in a qualified show and you feed Showmaster®, the chances are you have won a special Cash-for-Champions® award. Just fill out your portion of the application form and give it to your Showmaster® feed dealer to complete. You can also fill out your application online at www.showmasterfeeds.com.

HOW THE CASH-FOR-CHAMPIONS® PROGRAM WORKS

1. Locate a retailer to purchase Showmaster® products.
2. Follow official rules for awards program.
3. Cash and personalized awards are awarded to individuals who use Showmaster® products and have a winner at an eligible show.
4. Print and complete application form and submit to your local dealer.
5. Awards and prizes will not be processed until ACCO Feeds receives the complete signature and release form.

CLR WTR Joy's Deelite T5105

Shown by Jacob Schwab, IN

When we purchased JF Ebony's Joy 5105R, we expected great things but in our opinion, she has gone above and beyond. After being undefeated as a cow/calf pair in the show ring, she went on to produce females like her first calf, Joy's Deelite that sold for \$14,000 in the 2007 Field of Dreams Sale to Future Cross Genetics, Billings, MT and is making her mark in the show ring for Jacob Schwab.

BIF Lady T802

Dam: WHSP OAKS Razzle Dazzle

Bartlett's Island/Hudson Pines Farm purchased

Whsp Oaks Razzle Dazzle in the 2006 Field of Dreams Sale for \$1,800. Her first calf was a heifer by JDJ Charisma that was selected to be part of the 2007 Living Legacy Sale at Hudson Pines. This special young lady was a highlight for the sale and sold to Raisin Cane Cattle Company for \$9,000. Just a fine example of the profit-making females offered year after year in the Field of Dreams Sale.

Harkers Star P117

Correctly named as a baby, Harkers Star has always been a shining example of what breeding exceptional cattle is all about. Star sold in the 2004 Field of Dreams sale as a young fancy foundation heifer purchased by Hilco Cattle and Ashley Moore. Claiming the purple at the 2005 AJSA Jr National, she was selected as Champion Foundation Female and fulfilled her show career as a many-time winner. Star was then headed to the bright lights of Denver to be sold in the The One Sale as a sale feature. She caught the eye of many cattlemen but in the end, it was Deiter Brothers of South Dakota that had the final nod to bring Star into their elite donor program at a cost of \$10,000. Miss Star has proven her producing ability with her first son selling for \$7,500 and then producing a flush of sons that sold in the 2008 Deiter Sale. Nine sons walked across the block for an average of \$7,833, with prices ranging from \$4,500 to \$15,000. Star is a great example of the quality of cattle offered in the Field of Dreams Sale.

2008 Field of Dreams Simmental Sale

SUGGESTED SALE TERMS AND CONDITIONS AMERICAN SIMMENTAL ASSOCIATION (Revised 2006)

"The following suggestions are offered as possible terms and conditions of sale to be agreed upon before the sale of Simmental/Simbrah cattle. It recognizes that these suggestions may not be mutually agreeable and are not intended as a substitute for competent legal advice.

The American Simmental Association makes no warranties, either expressed or implied, as to their applicability to any member's individual situation."

BIDDING AND APPLICABLE LAW:

All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS:

Any change of information other than that listed in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

TERMS:

Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

PURCHASER'S RISK:

Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS:

1. All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and the seller and should be documented in writing.
2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY:

Each animal which is catalogued, offered and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION:

Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE:

When an animal, through blood-typing, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon the return of the animal to the farm of the seller at the seller's expense. The animal in question, at the buyers option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate of registry corrected at the seller's expense with the corrected certificate returned to the buyer. Any adjustment provided herein, if selected, shall also absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:

1. Females are guaranteed to be breeders, with the exception of:
 - a) Females calves sold at side of dam
 - b) Injury or disease occurring after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Females used in ovum transplant after time of sale
 - e) Females shown competitively after time of sale
 - f) Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (defined as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
 - a) Bull calves sold at side of dam
 - b) Injury or disease occurring after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Bulls shown competitively after time of sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between the buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
5. A bred female is a female known to have been serviced by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
6. A pasture-bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this is safe in calf to that bull.
7. An open heifer is a virgin heifer that has never been exposed to a bull either through natural service or artificial insemination.
8. An open cow is a cow that has not been exposed to a bull either through natural service or artificial insemination since the birth of her last calf.
9. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE:

The purchaser of a female animal may have her examined within twenty-four (24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status or breeding status of any female so examined, when found not to be as represented at the time of the sale, is cause for the female to be returned to the seller as unsold.

EMBRYO TRANSFER:

1. Seller should provide upon request a complete history of embryo transfer activity for any female offered for sale.
2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

HORNED-SCURRED-POLLED DEFINITIONS AND GUARANTEES:

DEFINITIONS:

1. HORNED -- An animal with a horn growth affixed to the skull that has or has not been removed.
2. POLLED/SCURRED -- An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
3. POLLED -- An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
4. SMOOTH POLLED -- A smooth-polled individual has no scurs and does not develop scurs later in life.

GUARANTEES:

1. If an animal is sold as polled or polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon the return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value, whichever is acceptable to the buyer. The buyer has thirty (30) days from the date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the purchase price upon the return of the animal to the farm of the seller at the expense of the seller or at the buyer's option be exchanged for another smooth-polled animal of equal value.
3. If an animal is sold as polled and develops scurs, the seller will not be obligated to make any adjustments as a scurred animal is considered polled.
4. If an animal is sold as polled and has scurs, it shall be announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

- The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.
1. All claims for adjustment or refund must be made in writing either within six (6) months from the date of sale or no later than when the animal reaches 24 months of age, whichever occurs later, with the exception of claims involving the misrepresentation of service sire or as otherwise provided herein.
 2. In the event an animal is claimed to be a nonbreeder, the animal may be returned to the farm of the seller, at the buyers expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove that the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder the seller shall, at the option of the buyer, replace the animal with another of equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
 3. If a female is sold as "safe in calf" to a given sire or sires on a specific date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon the return of the animal and resulting progeny thereof to the farm of the seller at the seller's expense.
 4. If a female is sold as "open" and proves to be with calf at the time of sale and examined pregnant within sixty (60) days after the sale, the buyer may return the animal to the farm of the seller prior to calving for refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

LIMITATIONS OF OBLIGATIONS:

1. If the aforementioned suggested terms and conditions are adopted, they should constitute a contract between the buyer and the seller for each animal sold under these terms, and as such, should be binding upon both parties. Animals resold following purchase in a sale shall constitute a separate transaction and the privileges and obligations of the original two parties connected thereto are not covered by the terms and conditions of the sale.
2. The American Simmental Association, its directors or employees are not in any way responsible or liable for enforcing the suggested terms and conditions of any agreements involving transactions between buyers and sellers.
