Selling 56 Performance Tested Bulls and 35 Cow-Calf Pairs
SIMMENTAL • SIMANGUS • ANGUS

SATURDAY
APRIL 25, 2009

6 P.M. Sharp!
Waverly Livestock Auction
Waverly, Iowa
Welcome to our spring Performance With Class Bull Sale!

We greatly appreciate that you take the time to study the sale offering. We feel the bull lineup is stronger than ever. The quality runs deep and the pedigrees are stacked with predictable genetics.

The offering includes purebred Simmentals, SimAngus and purebred Angus bulls. They are moderate framed, polled and a very good group. Many are A.I.-sired by proven breed improvers, several are ET and natural sons from our donor cows, and there is a group of fall 18-20 month old bulls. Also included is a proven three year old herd sire and two bulls that will be two years old.

All yearling bulls were performance tested together on a very high roughage TMR ration. The gain test, ultrasound information and semen evaluation are very good.

Also included this year are 35 Simmental, Angus and commercial crossbred cows. Most will have calves by sale day.

Again this year, we are pleased to have bulls from our friends and customers David Martinson of Big M Ranch, Leon Sheets of Sheets Family Farms and granddaughter Stephanie Lynch.

We could not put on our sales and run the daily operations without a great, dedicated crew. We thank them for their extra effort.

In an effort to assist our buyers, we will keep the bulls until June 1, 2009. If you take your bulls home sale day, we will give you a $50.00 per head discount.

If you have any questions about the sale offering, please give sale management or us a call.

Heartland Simmentals
Tom, Cora and Kirk Lynch
SATURDAY, APRIL 25, 2009
6:00 p.m. CDT

 Held at the Waverly Livestock Auction
2212 5th Ave. NW • Waverly, IA 50677

SALE DAY PHONES:
319-352-2804 • 319-352-3175 • 319-352-3177
Kirk’s Cell 563-379-1190 • Val’s Cell 612-805-7405

SCHEDULE:
Saturday, April 25
All Day ............................................................Viewing of Sale Cattle
5:00 p.m. .................................................Complimentary Beef Meal
6:00 p.m. ...............Performance With Class Bull Sale, Vol. III

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires’ EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and –5, a 15-unit difference would be expected in their progeny (moving from -3 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pound more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we’d expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull’s EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and $ indexes visit www.simmental.org.

Listed below are the units ASA EPDs are expressed in:

- **All-Purpose Index (API):** Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)
- **Back Fat (BF):** Inches of backfat.
- **Birth Weight (BW):** Pounds of birth weight.
- **Calving Ease (CE):** Percent of unassisted births when used on heifers.
- **Carcass Weight (CW):** Pounds of carcass weight.
- **Maternal Calving Ease (MCE):** Percent of unassisted births in first-calving daughters.
- **Milk (MM):** Pounds of weaning weight due to milk.
- **Marbling (MARB):** Marbling score.
- **Maternal Weaning Weight (MWW):** Pounds of weaning weight due to milk and growth.
- **Ribeye Area (REA):** Square inches of ribeye.
- **Warner-Bratzler Shear Force (WBSF):** Pounds of force required to shear a steak.
- **Stayability (STAY):** Percent of daughters remaining in the cowherd at 6 years of age.
- **Terminal Index (TI):** Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)
- **Weaning Weight (WW):** Pounds of weaning weight.
- **Yearling Weight (YW):** Pounds of yearling weight.
- **Yield Grade (YG):** Yield grade score.

$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That’s where $ indexes come in. Through well-conceived, rigorous mathematical computation, $ indexes blend EPDs and economics to estimate an animal’s overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following $ indexes:

- **All-Purpose Index (API):** Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.
- **Terminal Index (TI):** Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use: if you’re keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra $6,000 over a $50 bull if both are exposed to 30 cows over 4 years ($50 diff. x 30 hd. x 4 yr. = $6,000). A percentile-ranking chart is required to determine where a bull’s index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and $ indexes visit www.simmental.org.

Ratio: 94  
This is a black son of the popular TNT Gunner. Ambush is a moderate framed and heavy muscled bull that is out of a very productive Preferred Stock cow. He has a low birth weight and should be calving ease.
The reason we love our Mr. Perfect sons is that they all have great rib design in a soggy package with a lot of growth, and Uptown is no different. He is smooth in his make up and big bodied. He also had great marbling ratio and gained well on test.

This is an attractive made, baldy Macho son. Vendetta is good fronted with great rib design. He is very good on the move with a big ribeye. He gained well on test as well.

This is a moderate framed, stylish son of Kaboom. This bull is great in his lines and really did great on test gaining over 4.5 lbs. per day while still staying lean.

This is a nice made, calving ease son of Goldmine that will work very well on heifers. Gold Rush is good structured in an attractive package. He gained well on test, and it is tough to combine calving ease and growth.

BMR Dream Traveler T29

This is a very impressive son of Traveler 004. This bull’s dam is a maternal sister to the legendary bull CNS Dream On. Dream Traveler is thick made, deep bodied and has a great hip. Make sure to check him out. He was the top gaining bull in our fall bull test.

Ultrasound:
- Rib Fat: 0.22
- Adj. IMF: 2.09
- Adj. REA: 16.6

Guest Breeder: Big M Ranch

BMR T52

Here is moderate framed, thick made own son of Preferred Beef. This bull is well balanced and out of a good donor cow. This bull gained well on test. He is a full brother to Lot #42.

Ultrasound:
- Rib Fat: 0.15
- Adj. IMF: 2.19

Guest Breeder: Big M Ranch

HL Proton T30J

This is a loose made, good structured bull. T30J is deep bodied with plenty of muscle and thickness.

Ultrasound:
- Rib Fat: 0.09

Full sister to Lot 44 that sold in 2009 National Western Simmental Sale to Prairie View Farms, Monroe City, Mo.

Adj. REA: 14.0
Ratio: 96

405T is a two year old bull that was used on commercial cows. He was a little younger bull last year. But, still as a yearling, he gained well on test and had an incredible marbling score.

We look forward to seeing you all again on April 25th!
Here is an aged bull that has done a good job for Leon. He is selling him because he is retained daughters in his herd. Hollywood is moderate framed and passes his muscle and thickness on to his calves.

Be sure to mark your calendars!

**FEMALE SALE**

**Performance with CLASS 2009**

**SUNDAY, NOVEMBER 8, 2009**

12 Noon Sharp!

Held at the Waverly Livestock Auction • Waverly, Iowa

Great Cattle!  
Great Hospitality!
Ankorian Werner Wild Fire 96
T C R Alliance Queen 57
Ultrasound: Rib Fat: 0.38
Adj. REA: 13.6 Ratio: 98
Here is a great Angus herd bull prospect. U Turn is an attractive made, deep bodied son of Wild Fire. He is thick and great on the move with a great front end. His marbling score is amazing and makes him the highest marbling bull we have ever had. There is lots of potential here!

B/R New Frontier 095
G G Pride 9142
Ultrasound: Rib Fat: 0.23
Adj. REA: 13.6 Ratio: 98
This is a deep bodied, easy fleshing son of New Frontier. This bull is well balanced and attractive. Wise Guy is very good on the move and will make some beautiful females.

We are offering 30 commercial cow-calf pairs with Simmental calves at side. The cows are Simmental, SimAngus or Angus and have been great producers for us. We are selling them because we want to offer some quality females to go with these stout bulls. Cows will be ready for pasture and most will have calves by sale day.

**SPRING 2009 PUREBRED SIMMENTAL PERCENTILE TABLE**

**SPRING 2009 HYBRID SIMMENTAL PERCENTILE TABLE**
BREED LEADING HERD SIRES

We look forward to seeing you on April 25th at the Waverly Livestock Auction in Waverly, Iowa! Sale starts at 6:00 p.m.

$50 per head discount if you haul your bull home on sale day!

VSF Mr. Perfect N305

Polled Purebred ASA#2199414
Birth: 2-14-03
Ellingon Black Perfector x AJV Miss Zing 701G
EPDs: 11 1.4 49 96 1 2 27 18
Carcass: 20.5 .03 .05 .00 .16 111 70
A high-performing sire that has an amazing 96 lb. YW EPD. Mr. Perfect scanned a 17.6 adjusted REA and a 4.46 adjusted IMF. You will see the excellent set of bulls sired by him.

HL Grid Buster P51

Polled Purebred ASA#2341475
Birth: 4-10-04
BE Liberty x HL Ms. Covergirl (600U)
EPDs: 8 0.6 28 54 1 3 17 15
Carcass: -6.2 -.01 .16 .01 .02 98 60
A solid black beef bull, very moderate in frame and full of meat. Ultrasounded with an 18.6 adjusted REA and excellent marbling. Raised in our program, everyone that sees him says wow! Check out his sons.

HL Power Pack R23

Polled Purebred ASA#2385928
Birth: 4-3-05
GW Lucky Dice 187H x NJC SVF Love Me Don’t U (Black Joker)
EPDs: 1 1 -1.1 32 68 5 11 27 19
Carcass: -0.2 .02 .12 .05 34 114 65
A Lucky Dice son with a great dam. Top 5% of the breed for milk EPD and top 10% for maternal weaning weight EPD.

TE McCallister G15

Homozygous Blk, Homozygous Pld PB ASA#1936463
Birth: 4-25-97
Nichol Black Destiny D12 x TE Erica E559 B
EPDs: 8 -.04 16 28 8 0 8 24
Carcass: -22.0 -.33 -.15 .01 .81 96 47
An ABS stud bull that we use natural service. Trait leader for MCE, YG and REA; Top 10% for Stay.

VL Kaboom 455S

Polled Purebred ASA#2372443
Birth: 3-20-06
HL Liberty P11 x Rains Black 455K
EPDs: 5 0.3 45 74 10 3 26 19
Carcass: 7.9 .08 .29 .09 .115 73
Kaboom was the high-selling bull in our 2007 Performance with Class Bull Sale. His calves are very impressive, thick made and attractive with an outcross pedigree.
