ALBION LIVESTOCK MARKET
ALBION, NE

SELLING 104 LOTS
of Simmental, SimAngus & Angus Genetics

Powerhouse Bulls | Bred Females | Fancy Open Show and Replacement Heifers

**REYNOLDSON
SIMMENTALS &
ARROW K FARMS**
2010 Bull and Female Production Sale

**WELCOME TO OUR
2010 SALE!**

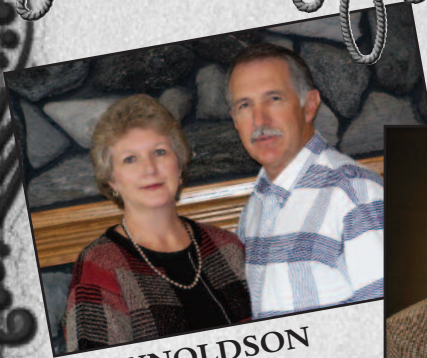

On behalf of Arrow K Farms, and ourselves, Reynoldson Simmentals, I want to welcome you to our 2010 sale.

Every year there is some kind of challenge, and this year for us it was the winter. Even though the snow was extremely deep and darn cold, our cows stayed right out in the corn stalks and made do. That is when it pays to have sound cattle. Arrow K Farms and ourselves continue to A.I., do ET work and buy the very best herd sires we can. We want you, our customer, to have the best rate of gain possible, create an animal with high marbling ability, good size rib eye, and still maintain calving ease. This year we are putting first calf heifers up to mature cows on our sale for you. Most of them will have A.I. calves at side by sale time.

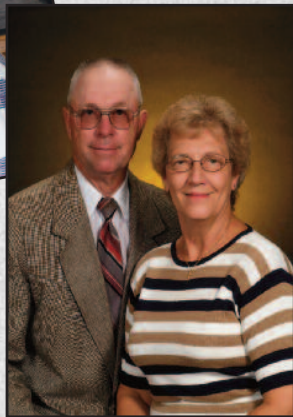

You're going to like our bull, and heifer selection this year. We will have purebred Simmentals, Simmental-Angus percentage bulls and heifers. They will be black, black blaze to solid reds. All the bulls will have ultrasound information, be fertility tested with scrotal measurements and will have the most current EPDs to help you select the best animal on sale day.

Remember, one of the best sources of information is to simply ask us. We know these cows, bulls, and heifer upside down, and crossways. We can tell you things that are never going to be put on paper. Let us know if we can help. Thank you for your interest in our cattle, and attending our sale!

Norm Reynoldson

**WE'RE GETTING GREAT REPORTS
FROM OUR LOYAL CUSTOMERS!**

"I wanted to drop a line and say 'thanks' for producing cattle that are really performance bred. We purchased a bull out of your sale sired by H3C REN Black Jack and out of your B923 cow. The females out of him are moderate framed, docile, milking mother machines, and we have kept every one! The bull calves... well, the numbers can speak for themselves. The average weaning weight on his bull calves has been in the mid 800 pound range.

We sent a pen of his bull calves down to the Utah Beef Improvement Association's Bull Test and cleaned house. We had the top gaining Simmental bull in the sale and the top gaining pen of four bulls. We will be back! Thanks!"
