FEMALE SALE 2026

Saturday • November 7th • 1:00 PM • Albia, IA

Welcome...

Dear Friends and Loyal Customers,

Hello everyone and welcome to our annual fall female sale hosted right here at the farm. Hard to believe another year has gone by, we've been blessed with good growing season in southern Iowa with plenty of grass; our fall has started extremely wet but much better than a drought. Family is all doing well, grandkids keep our lives full, school activities, sports, sleep overs and family time, we couldn't be more blessed.

What an exciting time to be in the cattle business, cow numbers being at an all-time low, beef demand at an all-time high. The future looks very bright for the cow calf operations. In my opinion, these cow numbers will be very slow to rebound with land availability, older operations phasing out and extreme cost of buying your way into the business.

Our philosophy has always to put maternal and performance traits first, and everything else will fall into place, and that has seemed to work very well for us. We operate our cow herd the same way a good commercial cowman operates his, that way we know our cattle will work in real world conditions. Our cows graze mostly fescue pastures, wintered on grass hay. We believe strongly in a good mineral program, excellent water quality with easy accessibility and work closely with our vets for the best possible vaccination program and parasite control.

Our goal is to produce high-quality cattle with above average performance that are phenotypically sound. We do strive to produce cattle that are moderate to a little above average framed. Genetically we try to use proven AI sires with high accuracy and balanced EPDs, we avoid single trait selections. We are also selecting sires with above average docility EPD's.

We are very proud of the Genetics being offered in this sale, they are the product of many years of AI breeding and culling practices that include performance, fertility, structure sounds, under quality and disposition. As I evaluate these cattle prior to sale time, I couldn't be more satisfied with the quality, type and condition of females we offering to you in this sale.

Most importantly, we want to thank all the people that have supported our program over the years and the friendships that have developed are priceless. Please don't hesitate to call for more information on the females listed in this sale or to just visit about cattle in general. We sincerely thank you for your interest in our program.

EPDS & TERMS

EPDs listed are BOLT 10/3/26 numbers. Please note EPDs may change from time the sale catalog is printed until the registration paper is transferred.

All cattle sell under the Suggested Sale Terms & Conditions of the American Simmental Association. Terms will be available sale day.

From Sale Management

WELCOME BEEF PRODUCERS,

It is always a privilege to welcome you to the Cason family's annual sales. This crew certainly knows how to roll out the red carpet and simply relish having everyone at the farm to share thoughts on good cattle.

We continue to be blessed with healthy prices in the beef business, which is benefiting both the seedstock breeder and the commercial cow man. You will love the addition of the commercial-bred heifers from a long-time Cason customer- genetics all powered by Cason breeding. The saying "the more they weigh, the more you will get paid" is especially true when it comes to predictable Cason genetics. These herds have outstanding natural calving cows that perform at the highest level while excelling in fertility, udder quality, carrying structural integrity, and overall phenotype. Staying dedicated to their belief is their mission for you, their valued customer.

The American Simmental Association is being progressive in their dedication to updating our EPDs, so be aware that the EPDs posted in the catalog today may change when the registration papers arrive in your mailbox. All indicators suggest Cason Genetics will benefit significantly.

New this year for those of you who can't attend in person, internet bidding will be on 2 platforms: Liveauction.tv and Superior Livestock Auctions. Feel free to sign up on either site, and Rep. Amanda will take good care of you.

Please accept this as your personal invitation to join us on November 7th at the farm for this high-quality offering, enjoy the wonderful meal from Russ & Becky, and visit with fellow cattlemen and women.

Sincerely,

Val & Lori Eberspacher

SALE ORDER / ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale attends at their own risk. Breeders or any of the sale force will not be held responsible for any injury while attending this sale.

Additional information and sale order can be found on the Eberspacher Enterprises website or Facebook page and the EE smart phone app!

LIVESTOCK INSURANCE

Insurance will be available through sale management.

THE OPEN SHOW HEIFER PROSPECTS offering for our 2026 Maternally Inspired sale are right off the top of the entire calf crop, these show heifer prospects have great potential and are phenotypical as good as we have ever offered, we have very high expectations for several of these heifers that they can compete at a very high level, but most importantly go home and make great brood cows. Remember these females are backed by many years breeding high quality maternally females with performance and production. So please join us at the farm on 11-7-2026 and you be the judge. These heifers are all halter broke and ready to go. They have received their calf hood vaccination and have had 3 full rounds of respiratory along with Alpha-7/MB-1.

THE FALL OPEN FEMALES offered this year are again right of the top of our 2025 fall calf crop. These females are all sired by proven genetics, that we consider most relevant to producing highly sound and productive females with longevity. This is a high-quality set of open females and are backed by proven genetics. The cow families behind these females are no different than our spring herd and are handled in the same manner. We operate a fall program by design; this allows us to spread our workload and to be able to offer some older bulls to our commercial producers in our spring bull sale. We would have loved to keep these females for our operation but currently running at capacity for us to keep. You can buy these with full confidence. This would be an opportunity to buy a package high-quality female with the genetic profile to advance your program. This is without a doubt the best set of open fall females we ever offered. These females have been fully vaccinated including pre breeding vaccination. You have the option to breed them this fall or hold them for early spring calving. You can buy these with full confidence.

THE BRED HEIFERS offering is very strong with some incredible herd building genetics, representing several of our top cow families and decades of breeding. The dams of these females are all proven. These females are AI'd bred to low-birth-weight sires. The genetic profile on the offspring of these heifers will be in the top percentile for most every trait, the docility on this set of females is second to none. After 45 years of breeding Simmental cattle, it's with no doubt we've got these females in position to be as productive and universal as our breed has ever offered. These females are in excellent condition, and all necessary vaccination are in order and would be eligible for interstate travel.

ADDED BONUS! Selling 20 Commercial Females powered by Cason Genetics!

Our good friend and customer, Scott Blomgren, has purchased bulls from the Cason family for many years. Selective genetics produced this powerhouse set of commercial bred heifers. This group of females is sired by Cason Mr. Koda and Cason Mr. Chief, which carry the calving ease and performance of TSN All Around and TSN Eagle. The mothers of these females are sired by W/C Raptic Fire 2101C, Koch Big Timber 865D and Cowboy Cut 5048Z. Packing some of the most predictable genetics in the Simmental breed. Carrying the service of an Angus bull, BAF Growth Fund 306, a Deer Vally

Growth Fund son out of a Hoover Dam cow. **Pasture exposed date: 6/18 to present.**

If you are looking for a performance, easy keeping set of young females, here they are!

Feel free to call Denny, Landon or Scott to visit about this set.

PROFIT THROUGH SCIENCE
American Simmental Association

FEMALES FIRST

Simmental cows set the bar for fertility, weaning weights and exceptional calving ease suited to all environments.

And, the **American Simmental Association** offers the industry's most expansive selection of cow-calf tools – like Cow Herd DNA Roundup – to identify longer-lasting replacement heifers. Get years of information on your commercial herd before investing years of time.

Simmental stands for better females.

**WE LOOK FORWARD TO SEEING YOU
ON NOVEMBER 7 IN ALBIA, IA!**

A COWBOY'S PRAYER

Father, I pause , thankful of the many blessings
you have bestowed upon me.

I ask that You will guide and direct me in my life.
Help me, Lord to live my life in such a manner that when
I make my last ride to the country up there, where the
grass grows lush and the water runs cool, that
You'll take me by the hand and say,

Welcome Home Cowboy
Amen

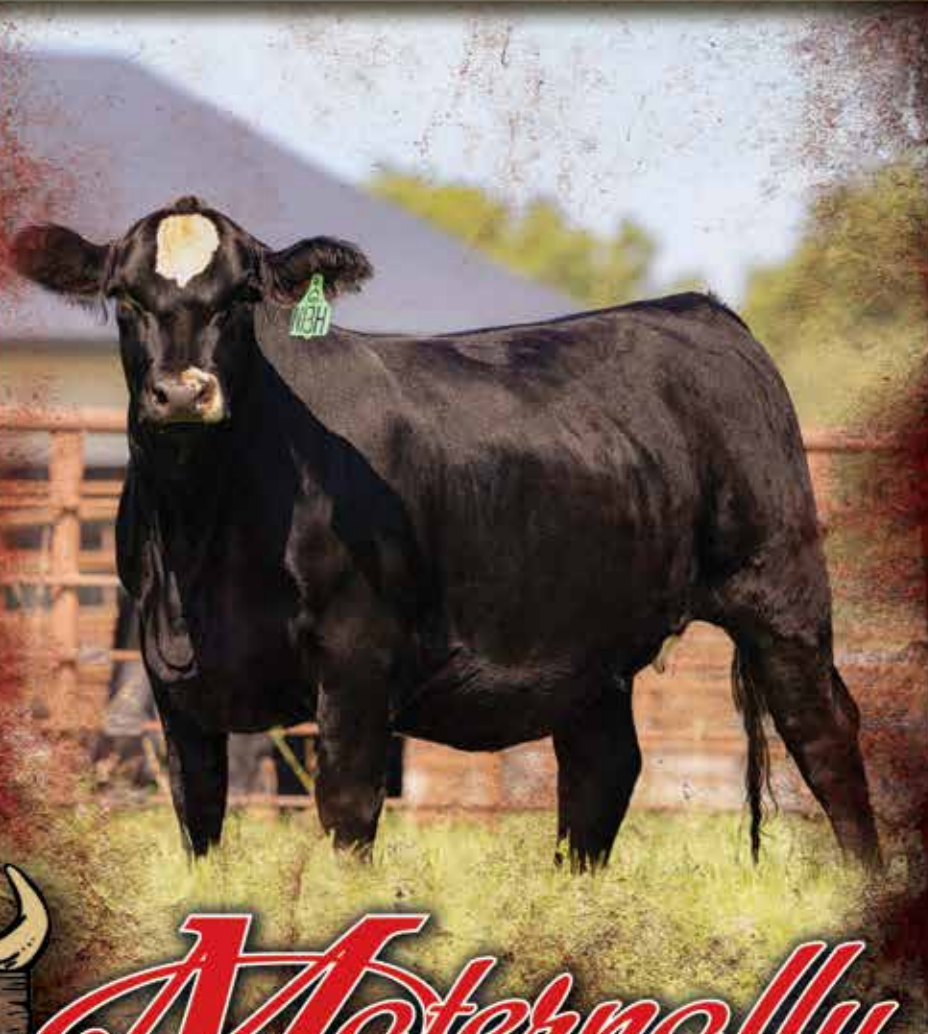

Thank you to all bidders & buyers at the 2025 sale! We appreciate you!
