Elite Sim Genetics and Rare Semen

WELCOME TO SIM MAGIC ON ICE VOL. IX!

It is always an exciting time for everyone at EE Inc to be able to gather such stellar genetics for the 9th Annual SimMagic and do it under the bright lights of Denver. We thank all of you for opening up your tanks for your powerhouse matrons and sharing these genetics with the large enthusiastic crowd that gathers each year at the SimMagic. This fall has been one for the record books with warm temps and we hope you have completed your fall work and are making plans for a trip to Denver!

We would like to thank our sponsors for this high class event. Trans Ova Genetics is the premier organization for your embryo transfer, in-vitro fertilization (IVF), sexed-semen, genetic preservation and cloning needs. Trans Ova, again this year, has added a special service package consisting of an IVF cycle using reverse sorted semen with all proceeds going to the American Simmental Foundation to assist with youth activities. Always great to work with Lance Ellsworth and Cattle Visions, Americas Premier Multi-Breed Semen distributor! Cattle Visions does an excellent job of online distributing. EDJE Technologies, who is a leader in web promotion, has been a marketing partner of Eberspacher ENT for the past 25 plus years; download the Eberspacher ENT App created by EDJE for "Hot News" and updates on the sales. The LiveAuctions.tv team is great to work with all year and we appreciate all they do for the Denver sales and another important firm that is there for all of us day in and day out, Jame Secondino Krieger with American Live Stock Cattle Mortality Insurance. Jame is a long time friend to us and all of you and has been there for everyone's insurance needs for 30 + years. This event would not happen if not for great breeders excited to share the genetics of their programs and we greatly appreciate your dedication. It is a privilege and an honor to be your marketing partner.

Please accept this as your personal invitation to attend an elegant evening to purchase elite frozen genetics of the best cattle to grace our breed on Saturday, January 13th, at The Double Tree Denver Central. The social starts at 5:30 pm with hors d'oeuvres, baron of beef and cash bar with the sale breaking the ice at 6:30 pm MST. Remember to sign up early with LiveAuctions.tv if you are not able to attend. Looking forward to seeing everyone at The Double Tree Central!

Sincerely,

Val & Lori Eberspacher

Val & Lori Eberspacher
EBERSPACHER ENTERPRISES, INC.

Settlement & Terms of the Sale: Purchase prices are due immediately after the auction. It is the responsibility of the buyer to handle shipping from the location of the embryos. Checks payable to Eberspacher Ent. Inc.

Announcements: Announcements made sale day and from the auction block during the sale take precedence over printed material in catalog or other printed material associated with the sale. Anyone attending this sale, attends at their own risk. Eberspacher Ent., or any of the sale force will not be held responsible for any personal injury for attending this sale.

EPDs: EPDs listed are Fall 2017.

Embryo Guarantee to the Buyer: Embryos are available for immediate shipping as soon as payment has been received by Eberspacher Ent., Inc. Terms of shipment are between the buyer and seller. The seller guarantees that each embryo package consists of Grade One eggs unless otherwise stated, and that they have been frozen by a reputable source. Sellers must warrant that they understand that they are responsible for guarantees made by the sales staff, and that they will help take responsible actions to insure the buyers of their lots are satisfied with their purchases.

Special Guarantee: *Sellers of embryo lots will guarantee the establishment of one (1) 60 day pregnancy per three embryos transferred.*

- A. The transfers must take place in the calendar year of 2018.
- B. Transfers are performed by Trans Ova or other certified embryologist facility.
- C. Buyers purchasing an embryo package that fails to establish one 60 day pregnancy will be refunded their purchase price by the seller or seller must provide same generic embryos to the buyer.

Schedule of Events

Friday-Wednesday, January 12th-17th

Viewing of "The One" sale cattle in front of Pepsi Arena "In The Yards"

Friday, January 12th

9:00 am.....Check In Pen Bulls, Heifers & Sale Cattle by Pepsi Arena

Selling 1 IVF or Conventional FLUSH to Bull of Choice

Guaranteeing six (6) transferrable embryos with an open top.

When Circle M Farms dispersed in August, they wrote in their catalog under this donor "she has a set of Duracell sons out working for various people that will probably make some noise later down the road." They were right!!! Her Duracell son, Crossroads, is definitely making some noise. He is the reigning Champion Simmental Bull at The Kansas State Fair, Tulsa State Fair, The America Royal in Kansas City & most recently at the NAILE in Louisville. Ms. Touch Of Gold has more than proved herself and now you have the opportunity to capitalize on this donors success with a bull of your choice. Offering one IVF or a conventional flush with the guarantee of 6 transferable embryos with no cap. S601 is currently ready to flush & ready to make you money. Buyer will provide semen & pay all flush cost.

365A is just now starting to make her mark on the Simmental industry. She is the type we strive to make perfect footed, perfect structured and can flat raise a calf. We have 3 calves by her and all are standouts by 3 matings. Most notably is SUMMER. 45 Years in the Simmental business and we have never had a female come near achieving the success of WHF Summer 365C. This is probably the most talked about purebred female in the past several years. In the words of Val "I haven't seen a purebred that elegant in a long time!" Just to hit the high points in her career:

Champion Heifer 2017 NAILE, Supreme Heifer 2017 American Royal, Supreme 4-H Heifer Iowa State Fair, Champion Simmental Iowa State fair, and Reserve Supreme Iowa Beef Expo.

This mating to Wide Range will be full sibs to this great female. And these will be the last eggs of that mating will plan to sell and have no intentions of making more.

Don't pass up this second mating to CDI Innovator 325D. Hopefully, he is on display in Denver for your appraisal. We have been really high on him since purchasing him this past spring and beyond excited for his first calves to hit the ground. We won't say this mating will be better than the other because those stats are near impossible to top, but we think it can make a run for some purple as well!

Pay attention to this opportunity, it may be your winning ticket! So much can be said about this magical mating of Sweet Emotion and Loaded Up, but the facts are simple, this mating flat works! The first two bulls born were part of the Champion Pen of 3 PB bulls in Denver and are now promotional sires for Holtkamp and Bruhn. The ladies have also been highly successful. Seein' Purple sold for \$30,000 for 1/3 embryo interest and has been tearing it up in the show rings in both the U.S. and Canada. Most recently she was named Supreme All Breeds and Champion Simmental in the First Lady Classic at Agribition in Canada for Wheatland and Michelson. The second female to sell was Champion Jr. Calf at the Nebraska State Fair and one of the high sellers in our Oktoberfest online sale; She will be seen wearing purple again! Sweet Emotion hails from the legendary H25 family and is already blazing her way to the history books herself! She is impressive from every angle and passes on her power, depth and superb structure to her offspring. Invest in a sure thing and put your prefix on these future champions and high sellers!

We are selling six IVF heifer embryos. Three embryos out of each sire out of our donor HPF Right To Love Z338 by the stunning and popular bulls HILB Oracle and W/C Bankroll. The decision to sell these embryos was not an easy one and created some debate but with the breeders response and the first set of calves out of Z338, we wanted to offer them. These will be the only eggs offered out of this cow for the next calendar year. Be sure to come by our stall on the hill, we want you to see just how consistent this donor female is. We are super excited to see the offspring of these two matings. If you are in the market for new and exciting genetics with predictability, be sure to consider this opportunity to add these to your herd.

Cayenne has written her own chapter in Simmental history producing great ones such as LLSF Eye Candy, LLSF Amethyst, LLSF/VLF Reactor, LLSF Better Believe It, LLSF Charged Up and WLTR Nashville and many more. The mating out of GLS/JRB Cash Flow 163C are a no miss, no home work needed opportunity. These calves are soft made, stout, big ribbed, structurally correct and white faced! Stop in and look at our pens of bulls in Denver as some of this mating is represented. You will be impressed! The mating to CNS Pays To Dream, we think will be a home run on Cayenne. The calves should be flawless in phenotype and structural makeup. The numbers will be good and the possibilities are endless. Look at Cayenne's track record. I could write a book on her offspring; however, I will make this short & sweet. This is an investment that will pay off.

We felt A343 was at the top of the 2013 born heifer crop at W/C and was quickly moved into our ET program. A343 is a direct daughter of the 534 Donor who is also the dam of the 8543U Donor who is closing in on \$4 million in progeny sales. The 534 Donor is now over \$1 million in progeny sales and we feel A343 is on track to carry on the cow family tradition. The W/C Loaded Up mating is already proven as you can tell by the full sib heifer pictured and 12 sons of A343 will highlight our February sale. The CCR Anchor mating has us equally excited as the Anchor sired cattle have been well recieved thus far. This is only the second time we have offered embryos for sale of A343 and will likely not make a habit out of it.

Simmental genetics that just increase with value every year as 8543U progeny keep breaking records time after time. I am not sure you could afford or even buy embryos out of her. That is why we jumped at the opportunity to purchase Grace for \$45,000 and haven't looked back. A full sister to the \$160,000 Bullseye and a maternal sister to \$205,000 Bankroll, \$84,000 Relentless, \$71,000 Executive Order, \$55,000 Bullet Proof, I think you get it... We have been more than pleased with Grace's udder and milk production. We have been stingy with her progeny as they have been outstanding. We will roll out a group next fall for your appraisal. Last year at SimMagic, her Top Grade embryos commanded \$2,000 each and before the night was over we sold 2 more sets for the same...the Profit mating comes with great anticipation as his progeny have won multiple shows and sold for 6 figures. Must be put in within one year and by a licensed embryologist.

Here's the one the Wernings described as "jaw dropping" and "one of the most intriguing structural gems we have ever produced!" Bill Sloup and Bill Fulton are in partnership on this elite female purchased in last year's Werning Sale. Make your choice. The genetics offered in the SimMagic Sale are truly cutting edge when combining this beauty with these two new sires. These mating include: W/C Fully Loaded, the Husker Group's red full brother to the \$205,000 1/2 interest Bankroll bull, and TL Ledger, the Profit son out of the dam of Bottomline, being promoted by the Harman Group.

This 1/2 blood daughter of the legendary Milestone was the \$36,000 feature of the Teixeira "Sale by the Sea" going to Red River Farms and Traynham Ranches. She was the talk of the fall sale season on the West Coast and the most astute cattlemen in the country admired her volume, substance, balance, length, soundness, class, udder quality, femininity and overall quality and completeness. She is from the feature donor dam at Teixeira, Rita 1C43, who is a direct daughter of the \$3.5 million producer, Rita 5F56 by Predestined and she records a WR 2@101 and a YR 2@101 while showing ultrasound ratios IMF 8@121 and REA 8@103. Maternal siblings to this grand female are TEX Playbook 5437, the featured young sire in the Teixeira Cattle Company, Spruce Mountain Ranch, Crazy K Ranch, Deer Valley Farm, Rishel Angus, Black Gold Genetics and Valley Oaks Angus programs and a new member of the Select Sires roster; Rita 5426, the \$270,000 valued half interest selection of Ingram Angus as the third high-valued female of the record-setting 2017 Crazy K Ranch Sale; a heifer pregnancy selected by Deer Valley Farm in the record-setting 2017 Bases Loaded Sale for \$32,000; Rita 5433, the \$120,000 half interest selection of Black Gold Genetics in the 2017 Spruce Mountain Ranch Sale; and TEX Rita 5466, the \$60,000 full sister to Playbook that topped the 2017 "Sale by the Sea" sale to Riverbend Ranches.

The Scarlet cow is one I always describe to people as my favorite cow. You absolutely can't build them any better than she is! So flat shouldered and chiseled necked with giant feet and perfect structure, with a perfect blaze of white in her forehead. She is starting her ET career off very well by raising the high selling purebred female in our 2016 production sale to the McGurk Family and just recently was the dominant dam represented in the 2017 NAILE bull shows having the Grand Champion Percentage Bull and the Reserve Grand Champion Purebred bull. We are offering 2 matings out of Scarlet. Get in on the ground floor with the sexed female embryos by the very popular Executive Order or stick with a proven conventional mating by the great and dependable Duracell - you choose.

This mating has yielded some awesome progeny for us in the 2017 calf crop and we have decided to share! Yes, this is the full sister to WLE Big Deal that's making quite an impact across the land. From producing show winning females to awesome breeding pieces with exceptional udder quality and design. Her mating to the calving ease, big digit sire CCR Anchor adds to the genetic merit of this mating. Whether this pregnancy results in female or male, it will give the now owner a chance to add their prefix to a true breeding piece with loads of value. The pregnant recip is a 7 year old black commercial female that we have used 3 years and raises heavy calves. Recip will be FOB Chalmers, IN and be ready to go anywhere. Take advantage of this opportunity...we think it's a slam dunk!

Wow, what a genetic opportunity here! It's no secret that Aje Gabby R7 has proven to be one of the finest Macho donors you will find in the breed. A two time Denver Champion herself, she continues to produce those elite show heifers that go on to make even better donors. Just a few of her highlights are HILB Miss Enchantress B527 that sold in 2014 to Hudson Pine Farms and Tingle Farms for \$40,000. In 2015 another full sibling to this pregnancy HILB Oo La La B412 sold to the Harker Family for \$20,000 in Denver and now one of their top donors with her first heifer calf selling for \$25,000. Also a maternal sister, HILB Hollywood Secrets D202 sold to Prospect Cattle Co. for \$50,000 and she is headed to the donor pen. If you are looking for the genetic work already done, take a look here, it's a no miss.

Sexed heifer embryos that will be full sibs to WHF/PRS/HPF Alley 247Y. Alley first hit the scene when she sold for \$42000 for 1/2 interest and then went on to be the Champion Female at the National Western in 2013. Fast forward that to 2017 and she topped another Hudson Pines Sale at \$87,000 and in between those two sales, she generated a couple hundred thousand worth of progeny. WHF Sierra 245S has been the lead donor for us for the past couple of years. Every mating is a success. Top herds around the country have invested in 245S genetics and we are starting to slow production on her. We won't say these will be the last we offer but there probably won't be many more opportunities.

It's the very rare female, especially a purebred, that backs up dominant show ring performances with even greater performance in the pasture. Serena 74Y is doing exactly that! She has generated close to \$2 million in revenue with 2 sons valued at \$184,000 each. Both of those, Jacked Up and Jacked Around, captured NAILE and NWSS purple. Other sons include the likes of \$50,000 Plymouth Rock, \$25,000 All In, and the popular Beliver bull used by us until his untimely death. Consistency has been the norm for the daughters. Most recently, her \$100,000 daughter by Pilgrim was crown Reserve Grand Purebred Female of both the 2017 AJSA Classic and NAILE Junior Show. At the 2016 Classic, Serena was responsible for four class winning daughters, what a feat. At the 2016 Indiana State Fair two daughters, one a purebred and one a percentage, were selected Champion and both made the top five overall! Her Executive Order topped the recent Right By Design Heifer Calf Division being the \$40,000 selection of David Smith of Colorado. The list could go on and on! Serena 74Y is a hallmark producer and hits big with each sire mating. She is quite the animal being an across the board leader for multiple performance traits. We are proud to highlight her and her daughters in this offering!!

Except the offer to get in on the ground floor of this favorite 74Y daughter. Believe In Serena 055C is the impressive Pays To Believe female produced from a pregnancy purchased by Richard Jenkins. 055C became very popular with huge wins that included being selected as Supreme Overall Female of the 2016 Michigan Beef Expo and completed her career being selected as sixth overall AJSA Classic Purebred Female for Adrianne. Her full sister was selected 3rd overall female of that same show. It was devastating to learn that this TF favorite had sustained a breeding injury that will limit her production to IVF collections. However, our faith in this powerhouse and an outstanding "One Eyed Jack" fall baby insures her future here. We feel that mating her to Quantum Leap is no risk.

"Breez" was without doubt a crowd favorite at the 2016 National Jr Heifer show where she claimed 3rd overall honors. When we began exploring options for creating F1's out of Breez, Style was an easy, logical choice. When one considers the Knockout family tree, they should consider the nearly \$2 Million dollars Knockout and Serena have accumulated over the last 6 years. We believe Breez is the next in line to carry on the money train tradition in the Knockout family tree. The list of champions Style has sired in recent years is far to long to ever start listing, where would one even start? What an incredible opportunity!

Arguably the finest progeny out of the famed KenCo Glamorous line comes Steel Magnolia, the superb Steel Force daughter that began her successful career as the high seller in the 2012 KenCo Family Matters Sale. At that time, Ken Butner described her as "without a doubt the best show prospect we have produced at KenCo", and she has done nothing but improve with maturity. This big footed, big boned, big ribbed female has been stellar on the move since day one. Following a successful show career in Texas, she has proven to be a powerful donor force at Silent Night Farms in Texas. Everyone that visits the ranch points to Steel Magnolia and her calf from ANY sire, and says "I want that one!" If it wasn't enough that she has such a magnificent phenotype and pedigree that seems to work with any bull, she has an easy going temperament that she stamps on her progeny. In her short career to date, she has produced the high selling purebred Simmental calf in The Black Label Event, with three of her calves leading off the recent Land Of Lincoln Sale, to name just a few. Steel Magnolia has also shown great fertility, averaging 14 embryos per collection. Whether you choose the mating to the late great Pilgrim, Profit, or the bull of your choice, this is a young donor not to miss out on... She and her progeny are destined for greatness in the show ring and the donor pen!

Magnificent Dreams is a stellar black baldy female that needs no introduction to the Simmental breed. T69 has had many admirers and created quite a fan club from her show career to being a mature mama cow in production. Celebrating a rich influence on Sloup's New Direction Sale and the impact she has made throughout the Simmental breed, T69 was quick to make her presence known. This cow family consistently produces cattle that are sound, functional, efficient and have an added attractiveness that makes them easily marketable. Progeny and frozen gems have sold to many progressive cattlemen and we have heard nothing but rave reviews from the breeders who have wisely invested. For this special sale, we are proud to offer sexed heifer embryos by Profit and JSSC Wide Body. The Profit mating is one that we look forward to with excitement and enthusiasm, having immense potential for earning big time revenue!! JSSC Wide Body daughters have topped the Black Label Event this year and years past for the boys in Texas, and after seeing this dudes daughters, it's understandable why!!!! Semen from this deceased stud is very scarce and this is an excellent opportunity to get your hands on his championship genetics. Don't miss the opportunity to acquire genetics from T69, a female that will make a huge impact in your operation!!! NOTE: Be sure to check out GKS Trelbi 49Z, a full sib to these embryos, who is also our donor highlighted in this sale.

One of the most influential females to ever enter the pens of C&C Farms. The added soundness, cow power, and overall maternal quality that she has brought to the table is unmatched, along with the combination of the added showing appeal that her progeny possess. There's no boundaries as to where the 9015 progeny can compete, whether its on the state and national levels, or entering the donor pens, these females exceed standards. But most importantly at the end of the day, they turn into front pasture cattle and money makers for their owners. We are offering IVF sexed heifer embryos on FBF1 Combustible and Mr. CCF Vision. There's no question that the FBF1 Combustible mating has proven to be a banner grabbing combination and the Mr. CCF Vision could be the next successful show heifer or top-notch donor for the buyer's program. These mating are tried and proven. No guessing games here.

A legacy is defined as "anything handed down from the past", that is exactly what Jestress 9015 has done to her most famous daughter. Jestress B79 is carrying the legacy of her prolific mother and is still paving her own path in the percentage Simmental world. B79 is a female that has caught more attention than any we have ever raised. If any of us had a pasture full of females like this Combustible daughter, we could retire. She was breathtaking at the 2017 Simmental Junior Nationals where she grabbed one of her final banners as Champion Percentage Cow-Calf Pair. The mating of the champion Jestress B79 to the past NAILE Champion Percentage Bull FHEN Halftime for IVF sexed heifer embryos is one that could find the backdrop quite often. Once we talked to Mike Hartman about TL Ledger, the upcoming Profit son at Hartman Cattle Company, we knew that he would be the next bull that was mated B79 to. We think heifer or bull this mating could be very valuable. Offering (3) IVF Sexed heifer embryos by FHEN Halftime and (3) conventional embryos by TL Ledger.

Wow! This female is deadly. If you look up the definition of value, you will find the verb meaning: estimate the monetary worth of something or consider something to be important or beneficial; have a high opinion of. At C&C Farms, Jestress 9015 has great value. Now that her daughters are proven champions and are maturing into awesome looking broody-cow prospects, we believe that she has raised the bar for value. We are offering (3) conventional embryos by Mr. CCF 20-20 on this special bovine. She caught the eye of many breeders as she as slapped the Reserve Champion Percentage Simmental Female at the 2016 NAILE Jr. Show. Also, C12 was named the Supreme Champion Female at the 2016 GA National Fair. If you want to make them good looking, with tons of mass, body dimension and walks around like a cat, Jestress C12 will crank your motor.

LLSF Ura Baby Doll needs no introduction. Her son, Pays to Believe, has become a "go to" sire for many progressive breeders for consistent, structural correct, phenotypically good offspring. This is standard for this cow. This cow just doesn't miss! We are offering 3 conventional embryos out of TKCC Classified. This mating has been proven. Our lot 2 heifer in our sale this year was a female out of this mating. She sold for \$12,000 to Faith Cattle Company. We are very excited about this female's future. We will also have full sibs of this mating in our pen of bulls that we will be bringing to Denver. Stop by and take a look. You won't be disappointed. The mating out of the now deceased RGRS SRG Two Step brings exciting possibilities as it is outcross genetics with no Dream On in the pedigree. This is a great opportunity to get in on the ground level of blending two exceptional cow families; JBS Rockin Robin & Wltr Lydia. The next great breed leading female or sire could very well come out of this mating.

Here is an exciting opportunity to own genetics out of one the most prolific donors in the Simmental breed. THSF Ms. Liberty S600 has a historical track record of producing elite quality, high revenue generating females. A few example of this are, SWC Ruby Yoko 151Y, who sold for \$27,500 for ½ interest in the 2012 National Western Sale, FBFS Zalika 0432, who sold for \$37,000 for ½ interest in the 2012 Black Label Sale and FBFS Wakanda 620W, who sold for \$20,000 in the 2015 Diamond and Spurs Sale for Owen Brothers. She is also the dam of the famous FBFS Xclamation, who had two daughters by JSSC Wide Body 090W sell for \$72,000 and \$20,000 at the 2017 Black Label Event Sale. We purchased S600 at the 2015 SimMagic Sale for \$25,000 as a 10 year old and she is hitting home runs for our program. We also have an awesome Duracell daughter selling in the 2018 "The One" Simmental Sale in the yards. We are very excited to offer these genetics to you.

To say that we are beyond excited about getting Kisses into full production is putting it rather mildly; I cannot wait to get her first set of ET calves on the ground this spring! Kisses sold for \$20,000 in the 2014 Jewels of the Northland Sale to the Willis Family of West Virginia and her first calf hit the ground with guns a blazing and ready to conquer anything in her path. TSW Blissful Sight (by PVF Insight) has been extremely competitive this past year for Thomas Willis. She was crowned the 2017 Jr. National Champion Bred & Owned percentage heifer, the 2017 Eastern Regional Reserve Champion Bred & Owned percentage heifer, the 2017 Supreme Female and Champion Simmental at the West Virginia State Fair, 3rd overall at the 2017 Breeders Sweepstakes and most recently the Division 5 Champion at the North American! Blissful Kisses herself was no slouch to the show ring being named 3rd overall percentage heifer at the 2015 Eastern Regionals. I've seen some exceptionally good Unbelievable sired percentage heifers and based on the way Kisses clicked with Insight, I think this is one sexed heifer mating that could be extremely good!

When we started to hunt for a big time donor, we selected the one many other breeders where searching for also and that was Victoria Secret. This baldie donor and her calf at side commanded \$37,000 and her bull brother commanded \$17,250 going to KenCo and Fenton Farms. This was great testimony to the family. Prior to the sale, Victoria Secret claimed Reserve Grand honors at the Pennsylvania Sate Farm show. The pedigree has strong roots going back four generations of the great Sheza Dandy and all the other cows in the pedigree are high impact cows as well and then on the top side to Secret Weapon and Aubrey's Black Blaze. We are excited about the future of however this cow is no secret.

The true legacy of any cow is determined how she handles the test of time. The fact that HTP SVF Dew The Stroke is still in the front pasture proves she has what it takes to make good cattle that would be the desired quality of every cattleman. Her impact has been felt in our operation over the past half-decade and we know that it will continue for many years to come. We are not sure that it is in our best interest to offer such potent matings out of our "can't miss" donor, but we are offering you our best. The Mr. CCF Vision x Dew The Stroke N93A combination has produced the best ever sire prospect to walk the pastures of C&C, Mr. CCF 20/20 (owned with Hartman Cattle and Paulson.) The W/C Loaded Up x Dew The Stroke N93A mating has us anxiously waiting for what could possibly be the next great herd sire or donor female. Her bull progeny are consistently sought after by true cattlemen and her daughters are always fixtures in our elite replacement pen. Offering 3 unsexed IVF embryos sired by Mr. CCF Vision and 3 unsexed IVF embryos by W/C Loaded Up.

There are few opportunities in this business to invest in genetics that are both phenotypically and genetically superior, so circle, star and tab this page! Gemstone is just beginning to build her legacy but she's certainly off to a great start! Hailing from one of the most potent cow families in the business, Gemstone is blessed with generation after generation of maternal greatness. Her dam, Miss Awe 426W, is the lead donor at Tingle Farms and has produced countless champions and high sellers. Gemstone herself was the high selling bred at the 2014 North American Select Simmental Sale and earned many admirers in Louisville. An exceptionally powerful female with a massively constructed hip and loads of internal capacity, Gemstone still possesses femininity and remains smooth shouldered and flexible off both ends. The Colburn Primo embryos are the same mating that were the high selling embryos in Sim Magic last year, commanding \$2,300/embryo; a wise investment by one of the best cattlemen in the industry. The Classifieds have us super excited; a mating of power and elegance in a purebred package. Which mating is better? Both!

Early Sunset Pride 49Y is a daughter of WAGR Driver 706T. A cow Bruhn Farms purchased out of the 2011 Hartman Sale. Purchased in 2015 by Rust Mountain View Ranch and Hennessy Show Cattle with her first calf topping our sale at \$19,500 out of the great Carver bull raised by Kearns Cattle Co. There is definitely opportunity in both matings in this offering.

922B is an own daughter of JM BF H25. H25 has been a dominant female that needs introduction producing a Triple Crown Winner, sale features and front pasture donors across the industry. 922B was acquired when we purchased a package of embryos that yielded 922B and her flush sister that sold to KenCo Cattle Co. and Sloup Simmentals for \$25,000. 922B's skeletal design is second to none, stout feature, wild necked and in more elevate package than most Simmental donors today. We mated her to OBCC Blacklist 915B, the 2016 Champion Bull at Fort Worth. His offspring have, though limited in numbers, have highlighted in several sale offerings this fall. The robust rib shape that Blacklist transmits, we felt would make the power house mating. OBCC Blacklist is back by the S600 cow family. Fresh mating here that is back by some of the breed matriarchs, buy with confidence.

Red enthusiasts pay attention! Here is an exciting opportunity to dive head first into some of the hottest genetics of the breed. Red cattle have sure caught on fire lately and it's easy to see why. When we found What To Expect at the last Northern Lights Sale, we knew we had found something special. It's not very often that one finds a red baldy, with that much mass and power yet elegant fronted, clean in her lines and an absolute GENETIC JACKPOT. With an API of 169 and going back to two legendary cow families, Shear Force and the \$50,000 Expecting A Dream, What To Expect is as versatile as they come. Recently, three sons sold through the Indiana Bull Test in Bedford, IN, averaging \$8000 and were the highest indexing bulls in the entire test, with one winning the whole thing. On the female side, Volk Simmentals sold one for \$20,000 and Hillstown Farm sold one for \$4,500. They are in production and are certainly the kind of cattle to build an operation around! We have decided to open the tank to offer you not one but two matings on this striking beauty. The \$71,000 Executive Order, owned by Hilbrands Cattle Co., Hilbrands Simmentals and Werning Cattle Co., was by far the hottest, most used bull of the breed last year and being he is hetero for color, your chances of getting a red one are good! BC Lookout being a top Angus sire to use on Simmental cattle will definitely produce some tremendous half bloods. The choice is yours and like we said before, either way you are hitting a genetic jackpot. Numbers like these on cattle phenotypically this good, don't come along everyday but when they do, be sure you have the last bid when the hammer falls. Buy with confidence! Both matings have been proven!

Trelbi offers up an exceptional genetic opportunity that will put you in the driver's seat for years to come. Trelbi is an extremely powerful female with a massive hip and loads of internal dimension, who is a beautifully constructed, red baldy donor with a stunning presence to her. She has a genetic make-up second to none, and is on track for writing her own page in the Simmental breed. Trelbi's resume will grab your attention, with her first two natural calves already seeing the backdrop, and you can be assured there are many more to come. 49Z's first calf was the Reserve Champion Simmental Bull at the 2015 NCC, selling to Wurtz Cattle Co. in Nebraska, and her second, a heifer campaigned by the Bracker Family of Iowa, was the Champion Simmental Heifer at the 2016 Iowa Beef Expo, and sat in the fifth spot over all breeds. We feel the matings to the TKCC Classified bull, and the 20-20 bull, will both propel your operation to new heights. Don't miss out on this opportunity to acquire the early/elite embryo sales from a female with proven and predictable cow families that you will hearing a lot more from in the near future!!

Getting a little age on her, Rush has created quite a legacy for herself in the Simmental breed with high sellers and Champions at nearly every major show in North America. To say that we own part of her has truly been something we are proud of. Due to the fact that we only own half of her and we have not had many females out of her, we have kept all of them in our herd. We are very eager to get all of them in production. Her progeny and genetics have gone to some of the most prestigious programs in both The US and Canada. As she resides in Canada, we were very happy to see Loaded Up certified for Canadian semen. We think this mating could be her best one yet and that is no small feat.

The dam of this young donor, the late great Annie K, certainly needs no introduction based on her significant accomplishments garnered over such a short period of time. As the 2014 National Champion Female at the Fort Worth Stock Show and Rodeo, she and her calf made quite a stir and were the talk of the barns. When the opportunity arose to purchase one of the very few available daughters (especially a daughter that looks almost identical to her dam) we jumped at the chance. Annie Oakley has the same baldy face, bone and gut, tempered with class, elegance and sophistication that was admired in her dam. Whether you choose the mating to the late great Pilgrim, JSSC Wide Body, or the bull of your choice, this is a young donor not to miss out on. She and her progeny are destined for greatness in the show ring and the donor pen!

This is the "Mile-High" embryo debut of "Bear". A popular winner for Claire Trennepohl, this super stout and mobile lady was a two time NWSS Division winner as well as being Grand Champion of the 2017 Dixie National Livestock Show. Her first flush commanded 5 digits and her daughter by "STCC Jacked Up" recently fetched \$30,000 in Trennepohl's Right By Design Sale. That same daughter was slapped as Reserve Grand Champion Purebred Female at the highly competitive 2017 Hoosier Beef Congress one week later for Camryn Clapp. Remember, this is the same cow family that produced Dream On and it struck again with this young cow that is going to be a big player.

You would have to look far and wide to find a cow with the versatility and ongoing success of Lady 865U. She is a breed matron that has clicked with so many sires over her amazing career. This one of a kind donor is responsible for a lot of the successes at Janssen Farms, IA, producing countless high selling sons and daughters over the years. Those offspring have gone on to perform at a high level not only in the show ring but in the production ring for their new owners. Lady 865U is the dam of the \$30,000 B&L Southern Charm that was produced from an embryo purchase and shown so successfully by Landon Hall, KY, before selling half interest to Keith Lambright, IN. Another daughter by Upgrade was a \$42,500 top seller of her calf crop. While yet another daughter was the \$17,000 selection of Hudson Pines. However, 865 is not limited to top end female production. She has such bulls as JF Domination 1014Y and JF Performer 039X to her credit.

Keepsake, the 2011 Junior National Champion Bred & Owned and Denver high seller at \$30,000 returns to the Mile High city with what might be her most exciting mating. Pays To Believe. These embryos will be full siblings in blood to the popular North American Champion LLSF Pays To Dream ZU194. Keepsake's heifer was a top seller at the 2016 North American selling for \$20,000 and was Reserve Calf Champion the following day. We are excited to see progeny from this mating.

Look at these matings! The first set is by Executive Order, the big spread, calving ease son of 8543U that made a huge splash with his first calf crop. Combine him with the super stout 73T, this mating represents an exciting opportunity to take your breeding to the next level. The next set is by the \$240,000 half interest bull Loaded Up that sold to Griswold in Denver. 73T is the stoutest Donna halfblood in production. She is a Meyer 734 out of the \$200,000 Coleman Donna 386, who is also the mother of 714 known for her ability to make Angus stud bulls with over nine sons currently listed in major companies. 73T also has two flush sisters that are well known. Sandeen 7386 who sold for \$70,000 half interest to Sloup and is the dam of Sandeen Upper Class. Also 8386, another flush sister, that been the corner stone of the last three Sandeen sales. Whether you are interested in raising show heifers, production cattle or super stout bulls, this mating could set you apart. Take a look at this picture of Donna 73T and imagine the opportunities!

Where do I start on this cow? She continues to be the dominant cow on the ranch! She was first noted by being the little sister to Brandon Luebbe's bull, Hard Core. In the last 2 years, she has made a name for herself by generating over \$60,000 in progeny sales, while still landing 3 sons into our own herd bull battery. We are very excited to see how Innovator will work on her and look forward to continuing the winning tradition.

Here is your chance to get in on the ground floor of a proven purple pedigree. CMCK Broker's Midnight Destiny was our high seller in 2015 selling half interest for \$27K. We were fortunate to have the opportunity to campaign her in 2016 and did she perform. She went on a terror of banner hanging in 2016 being the hottest SimSolution in the Midwest. Her records reads as follows; Champion SimSolution at VCCP, Champion SimSolution and 5th Supreme at Keystone International Open Show, Champion SimSolution and 4th Supreme at World Beef Expo, Champion SimSolution at Indiana State Fair Open Show, Champion SimSolution Ohio State Fair Open Show. Those are just the summer and fall shows as she was named Champion SimSolution five other times at the winter jackpot shows including a Supreme Champion and 3rd Overall Female. She is absolutely phenotypically flawless in her design.

Miss CCF Sheza Looker T35 had a very successful show career being in the spotlight multiple times. With that being said, her track record as a donor is even more impressive. Having two daughters, Miss CCF Sheza Bonnie and Miss CCF Sheza Dreamer, as donors that are now writing their own chapters. She still is impressive today with her overall maternal features and still maintaining her perfect one third and stomping ground with perfect structure. We feel the mating with Profit will be a home run with Looker.

Stemming from the heart of our operation, Miss CCF Sheza Bonnie exemplifies the goals that we have set for ourselves in the Simmental breed. Her days in the back drop may be over but her days of making the "right kind" are just beginning. This two time Reserve National Champion Female traces back to the ever popular Sheza Looker, who herself was slapped Champion Female at the 2009 Simmental Junior Nationals. Bonnie's progeny has caught the eye of many producers around the country and rightfully so. These cattle take that ground consuming stride we all like and cast a silhouette second to none. We feel these matings are just what the doctor ordered.

HL/BMR Duracell C139
High selling son of W139

Lausanne is a female that combined both phenotype and numbers to the highest degree. This moderate framed, easy keeping, soft made, sound footed female has an absolutely beautiful udder and is everything we look for physically in a cow. Then you read her numbers on paper and see she ranks in the Top 1% of the breed for API and Stayability, Top 2% for Calving Ease and Marbling, Top 3 % for REA, Shr, and Milk, Top 5% for BW, and Top 10% for TI, Yield grade, and Docility. She has quickly become a cornerstone of our program as her first calves have hit the ground, her first son to sell for us was the high selling bull in our bull sale this past spring. The matings to The Judge and Big Timber are new, up and coming bulls and the progeny will result in stout made, incredible numbered purebreds with unlimited potential. Big Timber is a Yellowstone son in Select Sires that combines fantastic numbers with a beef bull look. The Judge was selected by Willie Morris Cattle, Deniro Cattle, and Heartland Simmental as our new herd sire and was the high selling bull at Sunflower Cattle Company for \$36,000 last spring. This bull is phenotypically flawless with the numbers to back it up.

Here is a rare opportunity to purchase embryos out of our lead donor, Hooks Sonya 20S. Sonya is top 10% or better on 10 EPDs or Indexes, highlighted by her top 1% 183.4 API. She is a herd sire maker. She is the mother of four bulls at stud, most notably Eagle Pass Conversion and Leachman MSF Hawkeye J046D. Conversion was the \$24,000 top seller at the 2016 Eagle Pass sale going to a group of great breeders including Hook Farms. Hawkeye is the 212 API \$18,000 bull of the 2017 Leachman Cattle of Colorado spring sale going to Townsend Ranch. Sonya is also the mother of LCOC Sonya CJ044, the \$11,000 second high selling open heifer on the 2016 Leachman spring sale. This is a "can't miss" mating with the very popular Basin Payweight 1682 who's siring more bulls going into studs than any other sire in the past year.

K-LER Hoya Saxa is a young cow with a bright future. Her full sib is doing great things for Richie Farms and Zach Gray. These are going to be some impressive purebred calves this next year out of Steel Force and Executive Order which neither of these bulls need any type of introduction. A full sib in blood to the Steel Force embryos won the Jr Bred and Owned show in 2016. There is a great deal of potential with these two great bulls on one extraordinary young cow. Genetics from this cow line have been topping Denver, Louisville, Foundation Female Sales and many more. It's not often opportunity knocks with something that is almost a guaranteed money making purchase.
