22nd Annual Production Sale
Wednesday, February 26, 2020

1:00 PM at the farm, 2242 90th Avenue
Pipestone, Minnesota

Welcome Fellow Producers,

Welcome to our Annual Chestnut Angus Bull Sale. It's a new year and a new decade and all I can think of is thank god 2019 is over....Heck Ya! We made it! It's no secret that the last couple years have been nothing short of challenging for everyone not just in Agriculture, but all other industries. But, with all the challenges, we have had I am looking forward to 2020! Bring it on! I know at times we have all wanted to give up, we stayed strong, believed in what we were doing, and most importantly NEVER quit! While we are only just in the beginning of 2020, I'm optimistic that things will simply get better so keep your heads up and believe in yourselves! Here at CN family comes first, but these cows are like a part of our family! When you see the challenges mother nature has thrown at them daily these past couple years, it's hard not to feel for them and consider them a part of our family. With that being said, we are super excited to offer you a great set of bulls as well as bred females for your consideration that we feel will work in ANY environment especially what they have gone through in only their first year of life. These cattle, we feel are where we need to be for production within the Cattle Industry. These are performance driven bulls that will without question add pounds to your calf crop. These bulls are sired by some of the Industry Leading sires within the Angus Breed, and go back to cows in our operation that consistently time and time again get the job done. We are very happy with the consistency and quality that these bulls represent and are excited to offer you bulls that will influence your program to capitalize on your goals. Whether you want to raise cattle to sell for finishing, or raise maternal females, and everywhere in between, we believe we have bulls to fit those needs. These females range in age from young cows to females who have proven themselves and then some, and some even have offspring on this sale. We continue to focus on creating a quality product and most importantly maintaining our own identity! As a breeder, we will continue to strive to offer a product that will without question, make you money! We KEEP the best and CUT the rest.

I would like to thank our customers. Our success comes from you, and I'm truly thankful for the relationships that my customers, family, friends, and neighbors have given me, that makes this cattle business and agriculture community so strong. I would like to thank my Wife Sherri, my two boys: Wesly and Dawson, as well as our hired man Justin Blumer for all of the hard work and dedication they put into this operation day in and day out. I would also like to thank those whom have helped out along the way. I don't think people realize the amount of time and people it takes to put things like this all together. It's almost like getting ready for a wedding and there is a lot of preparation that goes into it. So with that to EVERYONE who has helped at all times of the year Thank You! I would also like to thank our Feed Specialist Scott Connot and the entire CHS Crew. They develop the rations for these cattle in order to ensure maximum performance which is greatly appreciated.

We welcome you to our place to look over our sale selection prior to our sale. We truly appreciate those of you whom may be returning customers, or those of you that are checking us out for the very first time. The door is always open for you to stop by, we would be happy to answer any questions that you may have and how our genetics can influence your program. My family and everyone that knows me says I have the gift to gab, but to me that's ok because we are all in this industry together. Lessons and things we all learn are lessons and things we should all share! With that, enough writing, we are looking forward to seeing you on sale day.

***Thanks,
Glenn, Sherri, Wesly & Dawson***

Chestnut Angus Farm

22nd Annual Production Sale

Wednesday, February 26th, 2020

1:00 PM at the Farm, Pipestone, Minnesota

54 YEARLING HERD BULL PROSPECTS & 10 COMMERCIAL BRED FEMALES

Cattle will not go through the sale ring. View the offering on the big TV screens. Cattle viewing available at the farm prior to sale and sale day.

WOW! Talk about an absolute beast of a bull on foot and paper that is so unique in so many ways. First off, on paper, he lands in the top 15% of the breed for YW and 20% for WW. On foot, it's hard to make Angus cattle with the amount of top shape, hip, and stifle, that this guy does and combine that with an awesome look from the side especially through his head neck and chest. But this guy isn't all about the look, he is loaded with performance, power and structural integrity built for the long haul. You want a bull that is modest in his birth weight, combined with the growth stamp with Knock Out on the bottom side of his pedigree and to top it off, simply one good looking rascal. He is without question the number one to buy come Feb 26!

Wow! An absolute beast of a bull!

We were really excited for these Wagon Boss calves to come the spring of 2019 and this guy is exactly why. His mother's first calf was a member of the 2019 NWSS Champion Pen of Heifers. This bull

is her second calf and she is well on her way to the donor pen. This guy is so square and massive in terms of his top shape and hip. He is bold sprung, super deep bodied and very square in his overall build. On paper, he ranks in the top 1% of the breed for YW, top 3% for WW, and top 4% for \$F. He ratios 116 at weaning time and just screams performance! Big time herd sire here with premium genetics on both sides of the pedigree!

I don't think "Cool" is a good enough word to describe this guy when you study him! This guy is an absolute stud! From his extra fuzz to his massive rib cage, then move behind him and for a second you would think you're looking at a Denver club calf sire with his extra hip and stifle! Sound as a cat and when you look down on paper, he lands in the top 2% for WW, 3% YW and \$B, 10% for \$W, 4% for \$F, 5% for RE, and finally 10% for RADG. He is "out there" in terms of look on foot and traits on paper but we can assure you this guy is the REAL DEAL!

Chestnut Peg 9589 WJ
LaGrand Peg 6753

This Torque son ranks in the top 4% of the breed for YW as well as top 10% for WW and \$F. Tremendous in his foot size and shape and rugged in his bone work. His half brother was the highly anticipated bull to be sold in Denver on the hill whom unfortunately we lost during our time at the NWSS. His mother cranked out another good one with this guy and one is probably a little longer bodied than his half brother. Plenty of mass and dimension and the Peg cow family NEVER misses! Certainly tons of quality all the way through this guy's pedigree as well as on foot! We promise you this guy will make you money!

8

Chestnut Turning Point 19

Here is the number 1 calving ease bull of the entire offering and better yet he ranks in the top 1% of the breed for CED and BW as well as top 2% for CEM. Combine that with the influence of Knock Out on the bottom side of his pedigree, this guy's calves will come easy and grow like crazy putting nothing but \$\$ back in your pocket when it comes time to sell your calves.

Chestnut Ruby WJ 34
Chestnut Ruby WJ 118

A super complete turning point sire landing in the top 25% of the breed for WW and YW. The influence of Knock Out is coming through with that extra length of body and dimension from end to end. Built from the ground up this guy is big footed and stout featured with the influence of one of the hottest sires in the industry.

14

Chestnut Stunner JB 89

This guy's mother was one of the feature cows on our 2019 Female Sale that sold to California. Sired by one of Genex's most popular sires: Stunner. This bull lands in the top 3% of the breed for BW, 4% for CED, 5% for WW, and 10% for \$W and YW. He possesses a 115 WW ratio with an actual WW of 940. If you want profitability and consistency in your calf crop, the homework is done with this guy. Just take him home and he will flat out work.

Power in the blood here! This guy's grandmother is going on 17 years old and is due to calve again this spring. If that doesn't scream longevity, I'm not really sure what does. This guy is functional and practical in his build and simply put is just good beef cattle! He has plenty of muscle and thickness all the way through and out of one of the most popular young sires in the Angus breed. One that will without question produce top end replacement females or high performing feeder cattle, this guy is built for the long haul.

These Value Added cattle really get the job done when it comes to basic build, performance and overall quality. Combine that with the influence of Knock Out on the bottom side and what he has done not only for our program but programs across the country, and cattle like this one are destined to do great things for your program. Plenty of thickness and power in a sound moving good looking package. This guy is flat good.

Super good Cowboy Up son that is out of a really good big bodied easy fleshing type of cow. Just like his mother this guy has that extra softness and boldness of rib and body. Plenty of length and built super at the ground with a great foot size and shape. Super practical in his kind and very complete across his genetic profile! A cowman's bull that will put money in your pocket when it comes time to selling the calves.

This guy's mother produced the top selling Angus Female at the 2019 Minnesota Best of the Breeds Angus Sale that headed to Nebraska. Here is a performance driven bull that lands in the top 10% for WW and top 15% for YW. The bottom side of this guy's pedigree has produced several top selling bulls as well as top end replacement females and show heifers. If you want performance quality backed by maternal merit, this versatile, powerfully built, high performing bull will generate profit no matter where your emphasis lies.

This guy is out of our top selling \$9,000 cow in our 2019 Fall Female Sale that goes to California. Just like his mother, here is a big bodied high performing calf that's easy fleshing and lands in the top 15% for WW and \$F, top 20% for YW and top 25% \$B. He ratios 112 at WW while being rugged and stout built from the ground up. Power and value on both sides of this one's pedigree! This one will flat out make you money!

Here is a big bodied stout featured bull that has performance written all over him. He lands in the top 3% of the breed for YW, top 4% for WW combined with a WW ratio of 117. Huge topped, big hipped with plenty of length of body to stamp those extra pounds when it counts! Big time herd sire here out of one of our younger herd bulls whom is making one heck of an impact around here!

A Broken Bow son that is super complete in his build! Big footed, stout boned, powerful in his front end and forearm, but still smooth in his look and athletic on the move. Good looking cattle always seem to bring premium when it comes to marketing and selling them, so if you want one that will stamp more look and overall quality, look no further because this guy will certainly do that and then some.

This guy's grandma is undoubtedly one of the matriarchs and leaders of the pack when it comes to raising females that not only make the show barn but also make some of the very best cows still to this day! The list goes on and on as to what she has done, but what's even more exciting is when those daughters enter production and this guy is exactly why! Big and stout, square, sound and loaded with power with an awesome set of running gears. He may be one of the youngest in the entire offering, but he might turn out to be one of the best!

Out of a powerful First Round daughter here is another smooth patterned stout featured bull that does a lot of things right when it comes to basic build, practicality and that herd bull look. A bull that is bred for performance and is so complete in his type and kind. Bulls like this are essentially timeless and why we enjoy raising Angus cattle. Super complete and loaded with quality to make you money.

The youngest bull in the entire offering but gives the rest of the bulls throughout the sale a run for their money in terms of performance and growth. He lands in the top 1% of the breed for \$F, top 10% \$B and YW, and top 20% for WW. Big footed, long sided, thick ended and ratios 105 at WW. He certainly continues to do what Knock Out does, which is stamp look and performance. Profitability is written all over this guy.

Lot 51

Here is a set of Commercial bulls that are very practical in their type and kind, but very complete as well. They are big footed with that extra stoutness of bone. They are big bodied with plenty of muscle shape and dimension all the way through. They are performance driven cattle that also possess that extra look to pass on to their calf crop. Ultimately, they are very complete cattle that will generate high performing calves that should also grade and yield. They will be profitable with plenty of longevity for years to come.

326, Maternal Sibling

Pasture Sire: Kramers R Stockman 4304 (6-10 to 8-1-19) • Due Early April

A true sale highlight as this female is a maternal sib to Chestnut Royal Stockman 326 who was a member of the Reserve Division Champion Pen of Bulls at the 2017 National Western Stock Show. We used him extensively in our program and as a result he produced Dawson's Reserve Supreme Heifer at the Minnesota State Fair in 2019 and Reserve Angus at the South Dakota State Fair. Royal Stockman 326 also produced two members of the Champion Pen of 3 Females at the 2019 National Western Stock Show along with countless other females and bulls retained in the herd or sold in our production sales. This First Round daughter has a ton of quality, with power in the blood and genetics on both sides of her pedigree whom have made tremendous impacts on our program. Buy with confidence as this female is certainly one that is very special.

Conversation has worked out very well for our program, producing top end bulls and females as well as the Grand Champion Steer at the 2019 National Jr. Angus Show. This heifer's mother will be one of our featured cows in the 2020 Fall Female Sale. Here is a young female with a ton of future potential! Really good in her lines with that extra stoutness, power and body all the way through. We wanted to make sure we sold some top end young females with different calving periods to accommodate and attract various customers. This female has power in her pedigree and will do big things in the near future!

Here is a super young female that right out of the gate raised a really good bull, Lot 8 in this sale. We may sound like a broken record when we talk about Knock Out, but again, we love his daughters in production. They are functional good looking females with exceptional udders and simply do what they were put on this earth to do, which is to raise cattle well and in an efficient way. Plus on paper she ranks in the top 1% of the breed for \$F, top 10% of the breed for YW and \$B, and top 15% for WW. Simply put, this young cow is just good livestock!

A member of the Beauty cow family stemming back to the matriarch 319. Here is a bold sprung stout featured female that lands in the top 10% of the breed for \$F and top 15% for \$B. She has produced three calves with an average YW ratio of 109 and WW ratio of 103. Our 2020 Fall Female Sale will feature cows from this age group, and we can promise you 597 would be towards the top end of that group. This girl has certainly done her job with a lot of work yet to do, and with her cow family, there is no doubt she will!

Here is a powerful stout featured female that raised one of the top selling heifer calves in our 2017 Fall Female Sale that went on and was campaigned successfully at several Minnesota shows. She has weaned off three calves with an average weaning ratio of 102 and she herself goes back to one of the best Up Start daughters of that age group. Big, stout and has already proven herself to raise show heifers. The homework is done with this female.

We look forward to seeing you at our farm on Wednesday, February 26th!

A really good Unanimous daughter that is built from the ground up. Big footed, stout boned, long bodied and elegant fronted. Very sound made with lots of longevity and practicality. We don't have very many Unanimous daughters within our cow herd, but the ones we do have we can tell you that they are some of the best producing cows, consistency wise, year after year no matter which way you mate them. This girl is no different and her smoothness combined with the extra thickness and look that Undisputed 338 possesses, might just make this a home run!

Once again we have a select few Commercial females for this year's sale. They have been great assets to our program and have done a tremendous job either being recipients or outcrossing them to generate some Simmental genetics. A great set of cows that are in the prime of their life and will be great money makers for your operation
