Excellence

BULL SALE 2021

THURSDAY, FEBRUARY 11TH
12:00 NOON | WEST POINT LIVESTOCK AUCTION
WEST POINT, NEBRASKA

Welcome Everyone!

On behalf of my family and consignors, I would like to invite you to our 5th annual Brand of Excellence Sale, and welcome 2021 into the year with a little bit of moisture and some better grain markets. We all know 2020 was a year that we could not get over soon enough, but we keep looking ahead to the future with our eyes open and optimism. I know that Simmental genetics keep getting hotter and more popular every year as people realize the benefits of crossbreeding and are finding the maternal side is second to none, I know this set of bulls without a doubt will raise the quality of your herd maternally and add pounds at the sale barn for their new owners.

Once again, I have a great set of consignors on the sale that are real cattlemen that make their living through livestock and take a lot of pride in what they are doing and use the best resources they can to raise the quality bar higher every year. I am very fortunate that this group of consignors let me come into their herds and only select off the top end of their calf crop to better my sale and not flood the market with just another bull.

We take a lot of pride in how we feed these bulls. They are developed on high roughage diets to increase the longevity of these bulls and to keep the fertility higher as well. We strive to keep these bulls looking like breeding cattle and not a bunch of fat cattle.

We value each one of our customers and are very fortunate to have a lot of repeat customers that we have become great friends with over the years which makes me feel good about what we have been doing. We are in the market to help our customers sell their calves and if we cannot at the time, we have other ways or outlets for them to go to. Feel free to call me or any one on the sale with questions as I will answer any question to the best of my knowledge and give you an honest opinion of what the bulls are. Hope to see you in West Point on the 11th of February as its going to be a sale you are not going to want to miss.

I have been pretty fortunate to raise some really top end bulls through the years and as far as a purebred, this has to be one of the top ones to date. My hired man talked me into trying Data Breach a few years back when we saw him in Denver, he went on to win The Hill show that year and had won Louisville prior to that. This bull is so good on his feet and legs and has a ton of rib shape to him. He has more performance than most can say anymore and keeps it in a really nice looking package. To me, this is a true herd sire and could be a breed changer. This cow was the result of some embryos we had purchased a few years back and has been a very consistent producer whether raising bulls or heifers. Buy with confidence here.

HILB/SHER Data Breach, Sire

I'll have to admit this bull has a little more white than I expected but I know some baldy guys out there feel they get more baldy calves and less white than you would think on a set of Angus cows. This bull was kind of in an ugly teenager stage when we pictured bulls, but if you want some performance with some frame and length of body, he will work for you.

Every year we all say we have the next great one or the best one we have ever raised, well I'm going to sound like a broken record here. This calf from day one has been a standout and has never had a bad day in his life. I feel this could be one of the nicest bulls to sell in the country this year. I've never raised a bull that is this long necked, clean fronted and kept so much performance to him as well. He is so loose made and structured and has some muscle to him as well. He by far goes back to one of the and maybe the nicest cow on the farm. She was the lead off heifer in my champion pen of heifers a few years back. This bull has in my opinion has the perfect baldy marked head with a perfect blaze and black around the eyes. I'm not for sure how you could make one much better.

One of the biggest, stoutest bulls in the sale and this is no accident. The dam of this bull raised my top seller a few years back for \$10,500 and sold to Voss Ranch in South Dakota. She always has a top end heifer or bull every year. We are proud and high on our Franchise calves and when you come see this one in person, you will understand why.

A few years back in Denver, my pick of the bulls was the Schooley Emmett bull. We sampled him a little bit and flushed one of my favorite cows to him. We had a really outstanding flush with these three bulls, all being standouts since birth and throughout the summer into weaning. There was no throw away calves and I'm very proud to say probably the best heifer calf I have ever raised is a full sib. We have had many opportunities to sell her but there is just some things you can't put a price on. All three are a little different colored and different pattern to them but there all loaded with a lot of quality.

This bull goes back to one of the best cow families on the farm that we sold 3 bulls on last year's sale. Their calves are always attractive, easy fleshing and the milk is always second to none. This bull is attractive with a lot of eye appeal, he is a nickel younger and out of my herd bull that has done a great job for me.

This is by far a sale feature and one that gets me really excited. Many that have came and looked, love this bull and is the favorite by a lot of them. He is really stout, big legged and packed full of meat and potatoes. Its hard to make cattle like this that are this stout and muscular but keep it in a smooth and attractive package. I know these On The Mark calves are gaining popularity across the country and I can see why. This one goes back to one of the nicest cows to walk on Dwyer's place and are proud to show her to anyone. This one could very well be one of the best bulls to sell this year in the country.

Here is a half brother to one of last year's sale features except he is a Lock Down instead. Lock Down has been one of my favorite sires for years and I really need to keep using more of him. They are small at birth, grow, get big and the females are second to none. This bull is long sided and attractive, should become a great investment.

If anyone has asked me the last few years what my favorite sire is and I would tell them Executive Order. He has been so consistent for making great females and bulls as well. They calve easy, get up and grow while staying eye appealing. This bull is super long bodied, long necked and so good on his feet and legs. His dam was a high seller on Hartman's female sale a few years back and goes back to the great Black Jade cow. Buying cow families sure take a lot of guess work out of things and make things way more consistent. Come find this one you will appreciate him.

I'm always a sucker for a red baldy and this bull is a stout, chunky bull that is loaded with quality. Bankroll as made an impact in the breed for giving cattle some muscle, eye appeal, bone, structure and fleshing ability. This bull will sure met anyone's needs.

Here's a Pinnacle that is the full brother to Lot 49 in this sale, making this bull and the red baldy in the sale full brothers by blood. He is solid red, good and has a nice look about him. He's level hiped, pack full of meat and muscle and loaded with quality. Will be a great breeding piece for anyone.

This is a little different twist for anything in the sale but sometimes something different is okay and I know every one wants something different. Class On Class has sure raise some high quality Maine and maternal genetics for that breed and the dam to this bull was a high seller at the Cattleman's Classic a few years ago.

BULL BUYERS GUIDE

EXPLANATION OF HOW TO UTILIZE API AND TI INDEXES

First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described to the left, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a \$50 bull if both are exposed to 30 cows over 4 years ($\$50 \text{ diff.} \times 30 \text{ hd.} \times 4 \text{ yr.} = \$6,000$). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For more information, visit www.simmental.org.

DEFINITIONS OF TERMS

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels.

Back Fat (BF): Inches of backfat.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning wt. due to milk.

Marbling (MRB): Marbling score.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario.

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score.

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario.

Average Daily Gain (ADG): postweaning rate of gain.

Docility (DOC): Percentage of offspring receiving a disposition score of 1 (docile).

Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario.
