PUREBRED & SIMANGUS™ LOTS

Welcome Everyone!

On behalf of my family and consignors, I would like to invite you to our 7th Annual Brand of Excellence Bull Sale. What a year it has been, but we have to take what mother nature gives us, it has been sure challenging, but with this we are sure getting rewarded with seeing high commodity prices whether it is in grains or the livestock industry. I really feel that the livestock business is sure going to stay strong for several years as we see more cows going to town all of the time due to drought conditions. With all expenses going up I feel that adding the best genetics you can to improve is more important then ever before. I know myself and this group of consignors are trying as hard as we can between using AI and embryo transfer to going out and selecting some of the best herd sires across the country.

We take great pride in how we grow and develop these bulls. They are developed on high roughage diets to increase the longevity of these bulls and also contributing to higher fertility. We try to keep these cattle looking youthful and how breeding cattle should look like, not like fat cattle.

I feel that if you're being a progressive breeder your going to say this is the best set of bulls we have offered. I know when my consignors let me come into there herd and hand pick the top ones it helps make this a really great set of cattle from top to the bottom. This set of bulls will offer you, bulls with calving ease, maintain a look and balance and ending up with performance.

We value all of our customers and very fortunate to have a lot of repeat buyers but most importantly they become great friends throughout the years. We are always in the market to help our customers out by buying their calves back, and if we can't we do have other outlets for them as well. Feel free to call with any questions or concerns as I will give you an honest opinion of the bulls. Hope to see you all February 9th in West Point for this is a set of bulls you not going to want to miss.

I bought his dam off the Bruhn Dispersal being my pick of the sale. When she calved I knew I made the right decision. We showed him at the Nebraska State Fair and maintained his growth and performance to make it to Denver to display. He has different genetics than what we normally have around here and he is truly a stand out bull. Easy fleshing, big boned, and plenty of mass will make cattlemen appreciate him as much as I do.

911 x Emmett mating has clicked as well as anything on the place has. He is the full brother to the high selling bull last year and displayed him with a lot of good reception at Denver this year. He is every bit like his brother was last year. Lots of hair, power and just that extra added look. Don't be shy to ask questions on this bull because he has me as excited as his brother did last year.

This is the first calf crop out of TJ Chief and this bull will get more popular throughout the years. He is out of a first calf heifer that did a great job raising him. From the few Chief calves we have got in the group they come out small and grow like weeds. I am very pleased with how they developed and should make calving out those heifers a lot less tricky without sacrificing pounds at weaning.

Here's the lead off bull for the 2023 Denver pen of bulls and boy does he demand attention. He is one of the stoutest bulls we have sold and has that rugged look while balancing up nicely. He is bold through ribs and offers that extra dimension of muscle shape through his top into his quarter. This is one that has stood out since birth. It's hard to make half bloods with this kind of dimension and substance.

Rubys Rhythm Z231, Dam

Here is a different twist to the dam that raised Percy and many high sellers over the years. We flushed this cow to No Limit to make some half bloods and the results impressed me. This bull had a tough go with his recip mom not taking care of him well enough but that didn't stop him from maturing into a great prospect that I needed to pick for Denver. He offers that smooth design that 231Z is quickly becoming famous for while still offering plenty of gas.

Here's an easy fleshing, soggy made bull that just reads feed efficiency as we all know through the last two years is very important. His dam is as easy keeping as any we cow have on the placed and past that trait onto her calf. If you have a terminal operation or looking for those big bellied replacements have this bull circled.

This bull's dam raised the high selling bull 4 years ago that went to Canada. He mimics his brother in a lot of ways, being big footed and boned, stout constructed, and offers that extra growth you want in a potential herd sire. This was a later calf for us but if you see him compared to the rest of the bulls you wouldn't believe me if I told you. There is a lot of breeding value in this bull.

Connealy Consensus 7229

BFJV Miss Driver 935Y

Here's a Cowboy Cut son that's a rugged beef bull. He's deep sided, big boned, wide from front to back. 935K has great growth numbers and should add some pounds and look to your next calf crop. Dam is a Consensus daughter that's a real tank and produces a good one every year.

Lazyhbar Forever Lady75A

Fate Has It is one of the must see bulls sale week and is worth the trip to West Point alone. You'd have to drive a lot of miles to find a red baldy bull who brings all the extras together like this SAM son. Extra long bodied, powerful and dense across his top, and comes backed by our 704D donor female who left an impressive set of these SAM's in her wake last calving season. Unlike some of the SAM progeny this guy makes no sacrifices when it comes to frame score as he is one of the biggest we brought to the offering and this entire flush came with added frame.

SLTR Draft King 219KBlack Polled 3/4 SM 1/4 AN • ASA#4151911
BD: 1/20/22 • Tattoo: 219K • Adj BW: 79 ET • Adj WW: N/A

A solid black son of the now deceased SAM, his sire group has been highly sought after the last two years and bulls like this are the reason why. Big footed, wide based, and stylish on the profile. We had 7 of these SAM x 704D calves last spring and none of them found their way to the cull pen. Extra predictability in this mating.

The Lover Boy progeny continues to check all the boxes and this guy is prime example of why he continues to see so much service year after year. Calving ease build coming with a flat shoulder, and smooth joints, and yet makes no sacrifices when it comes to performance coming with a YW in the top 30% of the breed. This stud is backed by the now million dollar producing Phyllis 423 on the bottom side of his pedigree to further booster his dollar generating potential.

Broken Arrow is one of the most unique bred bulls in the offering. A direct son of the high selling Canadian sire Wheatland Man O' War and going back to a complete US outcross daughter of Turnpike backed by the famed Turning Point herd sire who helped establish the Felt Farms program. This baldy purebred bull is packed with red meat and muscle and yet still gets out and moves free and unrestricted. His dam and grand dam are moderate framed cows who have picture perfect udders. I retained 3 ET sisters to this bull in my own herd.

This white faced son of Innovator goes back to one of the top bull raisers on the entire farm. Charge On is a dense made bull who comes with the added thickness across his top and plenty of power at the ground. You'll be impressed by his shear power and even more impressed when you find out it comes with a CE & BW that rank in the top 15% of the breed. 226K's dam is a moderate framed female who comes with added power and a picture perfect udder.
