

# HART SIMMENTALS

*Wednesday, February 16, 2022*

1:00 PM AT THE FARM 2 MILES SOUTH OF FREDERICK, SD

# Welcome to the 47th Annual Hart Simmentals Power Bull Sale!

The welcome mat is always out, and we are always open! We hope this finds you all well and safe and on behalf of our team, it is our greatest pleasure to welcome you, cattle enthusiasts, family, and friends, to our 47th annual Power Bull Sale. As the trend of change, adapt, evolve, and survive seems to be at the forefront of how our minutes, days, weeks, and months rotate around, our approach and diligence of excellence will never change.

Quality always sells itself, no matter what product you happen to be promoting and issuing your stamp of approval on. Our history epitomized the technology that is consistently used in programs such as Total Herd Enrollment, CHR, Genomic Enhancement and DNA testing with breakout results. Our selection in this sale we feel are truly breed highlights that are stacked rich in 47 years of Simmental history. We place strong emphasis on structural soundness, fleshing ability and stringent management practices. These components will and have outlived many fads and trends.

There is no denying our excitement to announce our newest ranch boss will be making his or her much anticipated arrival in June. It is our hope to see you firsthand and visit about your cattle needs and wishes. So please join us any day, any time, before and on the 16th in person or on DVAuction for your viewing and bidding pleasure.

## General Information

**Health:** We at Hart Simmental have a complete herd health program which is managed by Dr. Tim Kruse and the Wetonka Vet Clinic. All bulls will be accompanied by health papers for shipment anywhere in the United States. They have been vaccinated for Rednose, P13, BVD, 7-way clostridial, Blackleg, BRSV, Haemophilus, and have had their booster shot at weaning. They have also been dewormed with Safeguard and poured with Ivomec. Dams of all bulls have been tested Johnes free.

**Genetic Defects:** All bulls selling are Arthrogryposis Multiplex (AM) Free, Neuropathic Hydrocephalus (NH) Free, and Contractural Arachnodyctyly (CA) Free.

**Delivery:** FREE DELIVERY anywhere on bulls purchased over \$5,000. We will start delivery February 20 or we can keep the bulls until April 30. Any bull left here until April 30 must be picked up by the purchaser by that date. No exceptions. \$50 off per head if you haul your bull sale day.

**Performance Information:** All performance information will be posted on sale day for your inspection. Yearling Weights and Weight Per Day of Age will be available on all bulls selling sale day, and will be posted on the internet sale site as soon as complete.

**Volume Discount:** There will be a volume discount given if you purchase 3 bulls, the discount will be 3%. 4 bulls will have a 4% discount and 5 or more bulls will be a 5% discount.

**Livestock Insurance:** Insurance will be available sale day through Martin-Trudeau Insurance who offers loss of use and mortality, Amy Puepke 605-996-3106 or 800-450-3106. In no case will seller be responsible for more than the purchase price of the bull and details will be available through the agents on sale day. **If you intend on leaving your bulls at the ranch we highly recommend you insure your bull or bulls to better protect your investment.**

**EPDs:** Please note the EPDs may change from the time the sale catalog is printed until registration paper is transferred. Simmental EPDs are BOLT 1-4-22 numbers.

**All bulls have been tested for Genomic Enhanced EPDs.**

**Announcements:** Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale.

### Sale Terms & Conditions:

- 1) All cattle will sell under the terms and conditions adopted by the American Simmental Association.
- 2) We guarantee our cattle to be breeders but reserve the right to test any animal that may be returned to us as a non-breeder for one hundred eighty (180) days before making an adjustment. Cattle will be returned at the buyer's expense, and if declared a sound breeder by a competent veterinarian the cattle will be returned to the buyer's ranch at the buyer's expense. In case an adjustment is required, we will provide you with a satisfactory replacement (if available) or issue you a credit equal to the bull's purchase price minus the salvage value of \$1,000.
- 3) Any death or injury after the animal is sold is at the buyer's risk.
- 4) Anyone attending this sale attends at their own risk. The Hart's or any of the sale force will not be held responsible for any personal injury while attending this sale.

- Huge calving ease EPD's
- Recommended heifer bull
- Top 10% in 8 traits
- Complete outcross
- Fantastic testicular development
- Retaining 200 straws of semen for in herd use

No better way to mash up some of the most incredible attributes in to this super thick, striking profiled Black Hawk son. We could pinpoint out all of his superiority all day long and extremely hard to find a fault in his incredibly clean lined sleek physique an overall mass and dimensions. As you evaluate him, notice how he is laid in from his neck and shoulders all the way to his hips and hind quarter, making Stone Cold one of the most exciting and unique breeding opportunities to come to the forefront in quite some time.

- Dam's Ratios: BW 3 @ 98, WW 3 @ 104, YW 3 @ 100
- Retained 2 outstanding heifers back into our program – an Integrate daughter and a True Justice daughter
- Sold a True Justice son to Scott Braun

079J tallied up an actual weaning weight of 900lbs and just kept coming on strong with performance driven genetics. He portrays a square build, extra stout bone development and structural integrity.

Didn't this combo of Cholo and El Dorado blow your mind with her first bull offering?! Of course, it did! Because this awesome duo is especially blessed to have the great Hart Miss 102A as its granddam, who is none other than Hart State of War 056C's mother! State of War is the most used calving ease herd sire in the Semex line up and was heavily used in 2021 which is causing his semen to be in extra high demand and a little more difficult to obtain. 215F's daughter is here coming with her first calf and we await with much anticipation.

- "Hart Show Time 033H" purchased by Jones & Klumb Family Farms
- Added 2 fancy females back into our program

Don't let 150J's smidge lighter weaning weight give you cause for concerns. With drought conditions severe this year, some babies came off grass a tiny bit green, but boy he sure put the gas on and hasn't slowed up yet. He has a level, clean profile and exceptional balance and we are confident he will produce the right kind of results.

Hart Show Time 033H, Maternal Brother

*Eclipse or "Zip Tie" as we call him, came to us by way of the 2018 Bulls of the Bluegrass Sale and from the Wayward Hills Farms known for their impressive show cattle. But it was Zip Tie's excellent stature and tremendous power and first calving ease #'s that had us at hello. He pushes the envelope in terms of supreme weaning weight data, has a zipper front, nice smooth shoulders, level topped and big backed, rounding out a big ol' set of hooves and great leg structure! We have mated him to all manner of cows, and he continues to excel and push the boundaries in all the right directions. If stoutness, balance, substance, and quality are what you seek in a herd sire, these Eclipse sons are the kind you will need to have with your program!*

*His daughters, daughters, daughters plain and simple are that good. Franchise has accomplished the goals that we had set in front of him. His high producing females have tremendous udders and teat structure which is key to having calves that are high weaning and high profit potential. His herd sire prospects will continue in this highly maternal trail to build you a herd of females to rival any in the industry!*

492Z is one of our special red cows – if it's here and red, then you know it's a really great cow that gets to grace our green pastures. She is the mom to Hart

Nitty Gritty 203E – a red blaze bull that was one of the finest red baldies we have ever had the pleasure to raise. 117J has an oh so attractive muscle pattern that lays on a generous amount of mass offering tremendous mating flexibility and carries huge maternal curve bending performance!

Serious Bull!!! Hart Chedder 013J's pedigree resounds with a strong maternal program of dams sporting picture perfect udders and pleasing sleek design perfection. His multi-segmented appeal puts him in a category that checks all boxes to be an absolute breed leader. The combination of Eclipse and Franchise has put down all of the right parts with an extra dose of growth and muscle mass which makes this equation a mark for many generations to come.

Even though 137J's numbers say he is low birth – but I wouldn't use him on heifers, we never did use Power Plus on heifers – he was purchased for his power to use on cows. 137J sets the stage for power, substance, dimension, body mass and sets down on extra circumference of foot and bone.

## SONS OF *Hart Extraction* 43G

Purebred SM ASA#3686063 Tattoo: 43G Birth: 3-20-19

Hart Burbank 363D x Hart Miss 103A

EPDs													
CE	BW	WW	YW	ADG	MCE	MM	MWW	STAY	DOC	CWT	YG	MARB	BF
12	2.5	78	126	.30	6	23	62	19	9.2	40.2	-.42	.13	-.083

An opportunity just fell into our lap as we were out and about collecting up all of our newly purchased herd sires in 2015. It just so happened that SVF Z47 Patch was just finishing up a standout breeding season and happened to be available as we were searching for a herd sire to intersect some attractive chrome into our program, and it was a "made for us" moment. As we put the final touches on our 2016 bull sale and deliveries, a standout Patch calf that we had held back from the sale due to his age, kept popping up in our daily conversations and we decided that he was just that good. Now fast forward to the 2019 season and as they say, the rest is history. Extraction made his breeding debut and showed great potential and his sons particularly resemble that depth and three-dimensionalism that Patch portrayed. I call that a successful gamble.

Trademark came to us in 2018 and serviced an exemplary group of heifers for us and gave us such a stellar set of calves such as Hart Benchmark 002F going to Steffan Simmentals. He calves out so effortlessly, we know with the Bolt EPDs it shows a little differently but we couldn't have asked for any better than what he did. His calves are very marketable with great extension, smooth muscle design, and extra deep rib cavity. Can't wait to see what his daughters are going to calve in a couple of weeks look like!!
