

HART SIMMENTALS

Wednesday, February 18, 2026

1:00 PM AT THE FARM 2 MILES SOUTH OF FREDERICK, SD

Welcome to the 51st Annual Hart Simmentals Power Bull Sale!

Welcome One and all to our 51st annual bull sale!

"Time" is a fair weathered friend. In the grand scheme of things, 51 years has gone by in the blink of an eye. Other times, like when you needed something yesterday or waiting for just the right one, seems like forever!! We, as cattle producers, have been waiting for a year like 2025 to come along for our whole lives. Week after week we witnessed record-breaking sales one right after another, all the while telling ourselves it was going to fizzle out. But here we are a year later still maintaining a strong market base.

The need and desire for Simmental influence is constantly rising as consumers are finding new and innovative ways of promoting American raised beef instead of importing from rival countries. This puts the emphasis of purebred genetics top priority as commercial operations need the explosiveness that comes from the Simmental gene pool. They are breeding purebred lineage to purebred lineage and getting a superior product to market in all avenues. Therefore, our mission of producing only superior purebred genetics has remained the same and fuels our determination to bring you our very best offspring for your evaluation.

The grandkids have been busy this year aiding us whenever they can and are always quick to point out that we didn't do it right and should have done it their way. Grandpa Kerry's influence runs deep and they certainly keep the 3 of us on our toes. They will be great Simmental cattle stewards as the years move forward (secretly I have been wishing this time to slow down).

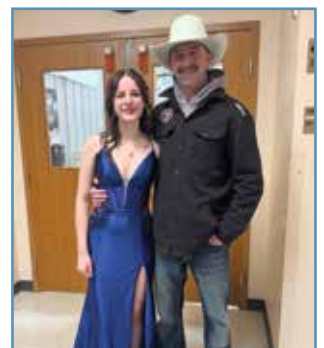

Our format for an all-video sale with no animals ran through the arena is still our choice for a no hassle sale that helps maintain the safety aspect for the bulls and heifers. So, if you find it is not feasible to make it to the sale, enjoy it from the comfort of your home, shop, tractor, ranger, office or phone as it is livestreamed from DVAuctions capable hands. As always, the cattle are here and ready for your evaluation and will be penned the day before and on sale day. We will be excited to show you every dam and herd sire to aid in your decision process.

So please come and join us on February 18th and have lunch on us. We look forward to seeing and visiting with you all!!

Mara, Justin, and Jamie

General Information

Health: We at Hart Simmental have a complete herd health program which is managed by Dr. Tim Kruse and the Wetonka Vet Clinic. All bulls will be accompanied by health papers for shipment anywhere in the United States. They have been vaccinated for Rednose, P13, BVD, 7-way clostridial, Blackleg, BRSV, Haemophilus, and have had their booster shot at weaning. They have also been dewormed with Safeguard and poured with Ivomec. Dams of all bulls have been tested John's free.

Genetic Defects: All bulls selling are Arthrogyposis Multiplex (AM) Free, Neuropathic Hydrocephalus (NH) Free, and Contractural Arachnodactyly (CA) Free.

Delivery: FREE DELIVERY anywhere on bulls purchased over \$5,000. We will start delivery February 27 or we can keep the bulls until April 30. Any bull left here until April 30 must be picked up by the purchaser by that date. No exceptions. \$50 off per head if you haul your bull sale day.

Performance Information: All performance information will be posted on sale day for your inspection. Yearling Weights and Weight Per Day of Age will be available on all bulls selling sale day, and will be posted on the internet sale site as soon as complete.

Volume Discount: There will be a volume discount given if you purchase 3 bulls, the discount will be 3%. 4 bulls will have a 4% discount and 5 or more bulls will be a 5% discount.

Livestock Insurance: Insurance will be available sale day through Dakota Ag Insurance, contact Jared Mohnen 605-990-5355 or email to jm@dakotaaginsurance.com. In no case will seller be responsible for more than the purchase price of the bull and details will be available through the agents on sale day. **If you intend on leaving your bulls at the ranch, we highly recommend you insure your bull or bulls to better protect your investment.**

EPDs: Please note the EPDs may change from the time the sale catalog is printed until registration paper is transferred. Simmental EPDs are BOLT 1/10/26 numbers.

All bulls have been tested for Genomic Enhanced EPDs.

Announcements: Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale.

Sale Terms & Conditions:

- 1) All cattle will sell under the terms and conditions adopted by the American Simmental Association.
- 2) We guarantee our cattle to be breeders but reserve the right to test any animal that may be returned to us as a non-breeder for one hundred eighty (180) days before making an adjustment. Cattle will be returned at the buyer's expense, and if declared a sound breeder by a competent veterinarian the cattle will be returned to the buyer's ranch at the buyer's expense. In case an adjustment is required, we will provide you with a satisfactory replacement (if available) or issue you a credit equal to the bull's purchase price minus the salvage value of \$1,000.
- 3) Any death or injury after the animal is sold is at the buyer's risk.
- 4) Anyone attending this sale attends at their own risk. The Hart's or any of the sale force will not be held responsible for any personal injury while attending this sale.

ES A110

The performance of Solid Gold just does not waver, since his first babies hit the ground in 23'. In 3 short years, he has amassed over 187 individuals in progeny and we can't wait for his babies to start hitting the ground any day now. We had to switch from using him on heifers to cows as he has matured into a massive herd bull (just got too big for the heifers) he is still in the top 1% for weaning weight, top 1% for maternal weaning weight, top 1% for TI and top 2% for marbling making his performance still remaining in the top of our breed. As you will notice in this years offering, he still puts massive frame size and a tremendous amount of center depth into both sons and daughters. He still remains our top herd sire as he has the highest dollar average in our 24' and 25' sales. So if you are needing to turn your program around, Solid Gold is a solid choice for your needs for 26' and can change your weaning weight production in one season!

Hart 180J, Maternal Brother

- Hart 180J- a Maximum Security son selling to Calvin Finnesand of Peever, SD
- Retaining one heifer back into our breeding program
- This is her 4th bull in a very impressive short career
- Top 1% for WW, top 2% for YW, top 4% for ADG, top 5% for MWW, top 4% for CW- these 5 traits is what our program strives for, it is what we consider crucial in any animal that we bring into our herd and wouldn't sacrifice for our program, why should you?

As we get into the many different things that makes Man Of Steel the bull he is, we remind you that these kind of results have been happening with the Solid Gold sons and daughters for over 3 years now. Man Of Steel is exactly what his name implies- every part of this guy is bullet proof, a pillar of power, an iron of backbone and built like a fortress!! He is reliable under pressure all the while having the temperance of Clark Kent. Man Of Steel carries his explosiveness from his nose to his tail and his clean-cut lines are straight as a rocket. He may not carry a cape but what he does carry is an undeniable stature, powerful presence, dare we even say a bit cocky. Well, leave the kryptonite to Lex Luther and leave you all with what may be the best Solid Gold herd bull prospect we have ever raised!

Hart Miss 038D

- Dams ratios - BW 6@100, WW 6@103
- Could be used on larger heifers
- 3rd highest actual weaning weight bull in our offering
- Hart Full Force 072L- a LHT Main Force 184G son selling to R&C Rohrbach Inc. of Roscoe, SD in our 24' production sale
- Hart Smoke Ring 150K- a Rockin H Mr. Smokeshow G01 son selling to David Kolb of Bison, SD in our 23' production sale
- Retaining 2 prestigious females into our breeding program- 130M coming with her first WHF Changing Times M404 calf
- Top 20% in 7 categories

Solid Gold's 3rd years bull calves had definitely sealed the envelope, put a stamp on it and has proven irrevocably that he is the real deal and will be for years to come. His continual slam dunk results can't be denied. He meshed so well with our cow power and along with his own created a sure-fire legacy to be dog gone proud of. 047N takes a play right out of Solid Gold's rule book and added his own bits and pieces. His steller actual weaning weight of 936lb is the proof of what Solid Gold's genetics can do for you. How ya like me now?!

W/C Utah 534A

Hart Miss X736

- Dams ratios - WW 7@102
- Recommended heifer bull
- Hart Madonna 103M- a W/C Need4speed daughter selling to Joshua Stentoft of Froid, MT in our 25' production sale
- Hart 230K- a Hart Bourbon 100F daughter- selling to Bickel Brothers of Firesteel, SD in 23'
- Hart 124F- a Hart Mega Watts 019C son- selling to Phillip Currid Family of Defuniak Springs, FL in our 19' production sale
- Retained 4 females into our breeding program

With the combination of Utah and Solid Gold into a pedigree creates a tasty dish of heifer bull prospect. This Utah dam is as good as they come and she exudes so much performance from all of her babies, it's like a cake walk for her. Now it is up to you which flavor you will use, we think they all are a chef's kiss! 066N takes a little bit of this and a little bit of that and whalla-perfection! His sheer size is just a complete nod to Solid Gold, who got so large that we couldn't use him on heifers any longer. In fact he won't fit anyone's working facilities including ours, we had to draw blood in our load out alley way. Thank goodness he is like a big kitten and just stood there like "whatcha all doing back there"!

- Hart 122M- a W/C Need4speed daughter selling to Bickel Brothers Of Firesteel, SD in 25'
- Retained 3 females- Hart 059K- produced Hart Mine Field 009M who sold to Stacey Frericks of Ashton, SD in our 25' production sale
- Hart 096L has her own Distinction son in our 26' sale offering
- Hart 085J- who produced 011L, who's own Distinction bull calf is in our 26' offering
- Top 20% in 7 categories

Hart State Of War needs no introduction, he did phenominal things in his career for McMillen Ranching LTD and Semex up in Canada and for us as well! Our own Hart 053F has done remarkable things for us and has raised many sale highlights for us. She brings big framed, stout as all get out and remarkable skeletal structured individuals. They all boast uncompromising bone density and big hoof development as well as large testicular development, all the things we pride ourselves on. 071N just parked himself in the drivers seat with his own steller performance, he is surely going to put himself on the map!

Hart Miss 164Z

- Dams ratios - BW 7@100, WW 7@100
- Hart 208L, a Maximum Security son, selling to Zimelman Ranch of Oakes, ND
- Hart 184K- an Oval F Gravity daughter selling to Bickel Brothers of Firesteel, SD
- Retaining 4 remarkable females working diligently in our breeding program and others

When we purchased JBS Single Shot from the prominent Benda Simmentals, Justin and Kerry went to his sale that year- a very frigid South Dakota day, but they came away with what we felt was the highlight of that year's sale. What he did for us, was gave us another boost of frame size which helped us maintain that characteristic we wouldn't give up. This is how we see 220N- the exact same performance and power that Single Shot gave. 220N will give you that extra on your next payday. Even though he has very good calving ease numbers, we would say that with the power Single Shot had- we wouldn't use him on heifers.

- 232N is the next installment of bulls produced by this Last Frontier dam- just keeps bringing the heat every year.
- Top 30% in 10 categories

Here comes the next installment of power packed bulls produced by this Last Frontier daughter. No matter what herd sire we threw her way the results are always the same. This is her 4th bull in 4 years, each of the peas in a pod- sheer perfection! 232N's athletic physic is easily apparent when being evaluated. He has an abundance of frame, length, dimension and depth. We love this combination and can't wait to see what impact he will make for his next owner.

- TJ Teardrop 783F
- Miss TRAXS B449

Our newest heifer bull was acquired from Traxinger Farms-talk about knocking it out of the park on his rookie season of service. Distinction is a KBHR Honor H060 son and out of a TJ Teardrop 783F female, he demonstrates perfect frame size and has depth and dimension for days. The 12 bulls in our offering out of him averaged actual weaning weight was 874.75 and an average of 860.66 for adjusted weaning weight. Now that is the sort of performance we expect from our herd sires. Distinction also gives 80% blaze faced individuals, his sons and daughters in this year's sale have the craziest beautiful chrome patterns- which is a highly sought after in the show world and those ranchers that only want blaze face females. So, we are confident that you will have tremendous success if you bring one of his individuals to your program.

- We knew these Solid Gold daughters would produce the exact performance that his sons do.

099N is a superb example of what Solid Gold does each and every single year, like it's no big deal. This was his first year on cows due to his extra-large size. We believe his daughters are going to mature into adequate frame size to produce the size we have come to expect. We couldn't use him on heifers as he has matured into a beast of a herd sire. Distinction reminded us of Solid Gold when he was in his first year of service in terms of an aggressive breeding style. 099N's frame size is indicative of Solid Gold's size which allows him to pack on all of that muscle mass showcasing his fantastic feed conversion rate!

This is how a rookie needs to start right out of the gate. No time like the present to show what he has! 028N showcases excellent muscle definition with an extra boost of frame size. He offers a new dynamic pedigree that paired with our females like he has been here for years. As you evaluate 028N, you can't help but admire that star quality he emits aiding his multi-faceted dynamics. He will surely be a sale highlight.

- Recommended heifer bull prospect
- Top 3% for YW and ADG
- This very young Need4speed female has done a tremendous job in her 2nd year of production

146N is as powerful as any of his counterparts and we are really impressed with this heifer bull candidate and what he can offer in an outcrossed pedigree. He is a densely made bull with a bold bone structure that is emphasized with long clean seamless muscle lines. We think this guy can be used in a wide range of avenues, the point is- he will make some impressive sons and daughters.

Our hearts are busting with pride as the 2nd set of bulls and heifers to be produced from Candy Man graces our 2026 with some real heavy hitters! His dominating presence is still a force to be reckoned with and the sons and daughters offered for your evaluation still showcases his immense potent results. He has nothing to prove as he has shown that he is a true contender and deserves the accolades he has so greatly received. His unmatched extension, and undeniable show stopping physical appearance is as prominent today as it was when he graced our sale in 23'. This year we are able to offer you so many more and can't wait to see his sons and daughters develop at the hands of their new owners.

- **Hart Lockjaw 096M- a full brother selling to Lordhus Farms of Clark, SD in our 25' production sale**
 - **Top 30% in 7 categories**
- This Jaw Breaker son repeated history much like his full brother did, only minus the fancy chrome packaging. 145N has taken the efficiency factor and turned the volume on high. His herd bull look and stature is sure to impress even the most critical producers. His perfect balance and uniformity which makes for that attractive profile, he will no doubt be the money-making kind for years to come.

After Always On Time success in our 25' sale and had proved his potential, actually crushing it. You will find that his sons and daughters carried on that his sublime performance that he has in his rookie season. Always On Time K4 came on our radar at the perfect time and felt he was the ultimate herd bull to compliment the cow power we have. What he transmitted into his calves is a tremendous amount of length and extended frame size with an overabundant amount of muscle mass. We can't say enough good things about these bulls, you'll want to evaluate them for yourself, you won't be disappointed.

Like an explosion, Always On Time's break out season had all of us anticipating our 2025 calving season in a huge way and it didn't disappoint! You won't be disappointed either as you get a chance to evaluate them at the ranch on our videos. With this being Hart 035H's third bull calf, it is safe to say we may see that trend continue and no one is mad at that! 095N right out the gate almost crushed the scale into that 900lb weaning range- we all had a bet it was going to be right in there. This guy has left a lasting impression on us and just keeps on a coming, by the time sale time gets here, he is going to be a bruiser!

- Hart 129K, an Oval F Gravity son, selling to Maurie Larsen of Burwell, NE
- Hart 026H, a Hart Bro Dozer son, selling to Maurie Larsen of Burwell, NE

This Utah daughter is as prolific a breeder as we have seen, she just doesn't miss, and we have thrown every herd sire trying to challenge her. She crushed our challenge and gave us a look that said "is that all you got"!!!!!! Her latest conquest is a collaboration with Always On Time and we think he may be her best calf yet, and that says something. 192N is as wide as a Mack truck and paces some impressive stature onto his larger frame size. We will surely make a soggy set of feeders or some really modern made fancy replacements.

Hart Miss 579Z

- Dams ratio - BW 7@101
- Top 30% in 13 triats
- Hart 093L, a Hart Code Black son, selling to McDonald Angus of Leonard, ND
- Hart 216K, an Oval F Gravity son, selling to Levi Hintz of Pingree, ND
- Hart 159G, a Trademark daughter selling to Kopfmann Livestock of Huron, SD
- Hart 149H, a Last Frontier daughter produced Hart Accelerator 123M selling to Shelbourn Simmentals of Colome, SD; Hart Traffic Jam 154L, a Need4speed son selling in our private treaty offering

This Raml Right Now son comes from a tremendous maternally driven WS All-Around Z35 dam that has given us a dynamite group of individuals that were sale highlights for us. 147N falls straight into line with his predecessors and brings his own special dynamic dominance to the forefront. As you evaluate him, his body style, structural integrity and unique design really stands out. We think he will more than prove himself a formidable force for any program.

Hart Miss 038D

To say that a person doesn't get excited, nervous, anxious after a whole year has passed and you get to view the results on one of your newest herd sires, we know you all experience the exact feelings. You have driven hundreds of miles, days away from the ranch to secure just the perfect replacement bull that will mesh with your genetics and give you a group of calves you can be darn proud of. Well, we didn't have to drive. We deliberately kept him back for our own personal use. His calves are densely made with a bold bone structure design and super impressive growth. The heavyweights that hit the ground are exactly what we were hoping for.

We bring you an extremely soggy and stout Armour son that has the brilliance like the shiniest of blades. He definitely grabs your attention from the minute you enter the pen with his sharp eye appeal, extra length, potent massive middle section, and that big ole' hip that is so formidable. Are you needing an instant boost to your pay weight? This guy will make that happen in his first year of service. Put him to work and make yourself one heck of a set of feeders or some extra fancy replacements.

 WHF/JS The Deuce K45
 WHF Delilah 45D
 WLE Copacetic E02
 CCS/JS Summer 13L
 WHF Summer 365C

- Out of a first calf heifer
- Top 1% in WW, top 2% in YW
- Granddam is the famous WHF Summer 365C cow that has been so influential in Wayward Hill Farms breeding program. She has no ratios to speak of as she is a donor cow but what she does have is over 217 babies to her career and I am sure she isn't finished yet.

Hart 034N is out of a sire that has done so many great things for Steenhooks, WHF/JS The Deuce K45 keeps raising the standards and setting, the bar very high on all platforms. When Justin saw CCS/JS Summer 13L at the Cowtown Classic in Oklahoma, when he was there to bring our donation heifer for the junior program, he knew she needed to be in South Dakota. With her first baby on the ground, she has just been a force to be reckoned with as a mother. We are so very impressed with her inaugural first year. 034N has such a presence to him already and certainly meets our aggressive standards. He has a massive middle, extra length and along with that explosive hind quarter gives him the chance to be the latest and greatest new herd sires that this industry needs.

WHF Summer 365C, Grandam

The **GALS OF THE GALAXY** have made the light year jump to be brought down from the heavens and take their rightful place by the herd bull prospects offered in our 2026 annual production sale. The need for superior females continually fuels the search for individual dams that will help an operations breeding program move in a positive direction. Ones that a breeder can build an amazing herd around. These ladies have been sent from above and selected for your consideration and evaluation and we couldn't be prouder of them!!

- Produced 2 impactful daughters for us

This is about as stacked as a toteboard can get. Hart Miss 121C is a rare jewel of a standout cornerstone of our breeding program. You don't have and sell as many sons and daughters from a natural bred female; those are donor cow stats. This impeccable baldy heifer out of Hart Jaw Breaker 058K will probably have us debating whether our decision to sell her was a mistake. Her flawless profile and flashy chrome pattern are second to none. One can appreciate her long sleek lines and smooth muscle pattern. Solid foundation on huge boned legs and extra-large hoof development. She is elegant through her front third, very clean fronted, bold in her rib shape and very sound on the move. As bright as a supernova is, this heifer has as bright a future for her next owners.

Hart Milky Way 009N is a TRAXS Distinction heifer out of an ES Solid Gold JG157 first calf heifer. Milky Way is as sweet as her name implies, she has style, balance and a maternal quality. She has some mighty impressive EPDs backed by her bold design, supple long front and a look that commands attention. She is the kind that stops traffic and will leave a lasting legacy for her new owner.

- **Granddam has produced only heifers and produced Hart Marilyn 136M from our 2025 production sale that sold to Koeplin Simmentals Ranch of Elgin, ND**

Hart Cosmic Dust 025N has a world of maternal power in her corner coming from a dam that has had 7 females. This really is an opportunity to put a wealth of super cow power into your breeding program and elevate your female division. This January baby has all of the right pieces and potential for a tremendous future. Her udder is exceptional and has perfect teat placement and size. So as the cosmic dust settles, take this opportunity and acquire a piece of the heavens and put this lovely lady to work for you.

- Hart Homeland 090K, a Maximum Security son, selling to Pat Knecht of Houghton, SD
- Hart 269L, an Oval F Flash daughter, selling to Josh Stentoft of Froid, MT

Every single one of Hart 301H's progeny have been highly marketable and Fireball is no exception. She is the epitome of a cherry hot fireball ready to set the world on fire. She takes on the role of her Hollow Point/Rancher mother and makes her own history story. She is fresh made, has a big bold rib style, and the mass to make a lasting impact in production. This hotter than the sun female will work for you no matter the path you set her in.

- Dams ratios - BW 4@104, WW 4@103
- Dark Space's mother is another perfect example of our cow power- she has only produced heifers. We believe this speaks volumes about a female's maternal strength over powering a herd bulls paternal traits. Our herd bulls match up very well with our cows and produce a formidable son or daughter, but it is without a doubt the very thing that sets those females apart. These are the cows that keep your up-and-coming young females producing the same results as their predecessors.

HLTS/CLRWTR Always On Time K4, Sire

We wish to congratulate Conley Schick

Conley is the second recipient of the KERRY HART MEMORIAL SCHOLARSHIP!

In memory of Kerry Hart, the Hart family would like to award one AJSA Member a chance at a scholarship for \$1,500 to any AJSA Member competing in a national level contest.

3-J Ms BT Cowgirl 917G
ES K69 KBHR Honor H060 **Homo Polled**
ES F145

ES Honor Among Men K69 is a son out of JC Quiet Man 758K and KBHR Honor H060 that we purchased last year Eichacker's bull sale. He displays an uncompromising skeletal frame that transcended down into his calves allowing them to convert feed into extra pounds. We appreciate his flawless streamline muscle design and his dominating presence! We couldn't be more pleased with his progeny and know you will be equally impressed when you get to view them In person.
