HILB Crazy N Love A475S Dam

On a scale from 1- wrestling mom...these girls are pros when it comes to all things boys! Good boys too, who are pushing the heavy weight division for their age groups! Burning Love is a burly made red pair with RED DONOR written all over her. Her full sisters to these girls have been popular with one a few years ago being a high seller to Sullivan Farms. This young red head is doing an outstanding job with her red Lover Boy bull calf. Yara spent some time in the show barn last summer and is broke if a pair is a challenge your older child is looking to take on this summer. Greatest Love has just been a work horse since she calved and is growing a fat baby while still keeping herself in awesome shape. Quantum Leap really clicked on N Love. Don't miss this opportunity to add these genetic powerhouses to your starting line up!

There are some women in this world that are straight out not meant to be mothers and there are some that will do anything possible to be a mom. Forbidden Love was absolutely devastated when her little boy didn't take a breath when he was born but became the ultimate super mom to her nephew when child protective services were called in a few days later for her half-sister. It was immediate love at first sight (after she checked to make sure it was indeed a boy and I assured her he was by the same sperm donor as hers) and this pair has been golden ever since. Even though boy mom life is her jam, we think Forbidden Love could make some really cool, big framed, woofy show heifers. There is only one other full sister that's a donor female for Nick & Alex Hansen in Nebraska. The purebred bull calf upgrade with the shot of Fort Knox should put her high on the short list! Lot 6A is a "nephew" to Lot 6 I guess you could say. His actual mom is a N Love/ Fort Knox who is a real big C U Next Tuesday and earned herself a trip to go work at McDonalds.

Don't lie, you just sang that Uncle Kracker tune in your head! Star Struck Love has been fun to watch develop from the day she was born. She got the best of everyone's world with the clean lines of her N Love Follow Me mama with the extra power from daddy Oracle. Full sisters to Chasing Love topped past Passion For Perfection sales with one in particular, rarely getting beat on the Georgia show circuit for Southern Roots Cattle. Top notch percentage pair here!

This flashy Data Breach sired pair of sisters is sure to get your attention. We like the overall quality and completeness they bring to the table, not to mention the perfect udder quality the Data Breach daughters are famous for. Loads of Love calved up early with a baldie bull calf by Right Now while big sister Base of Love is toting an extremely cool made Need4Speed heifer calf. Amazing moms! Base of Love didn't get the sunshine on picture day so be sure to check out the videos. These blaze face bombshells have countless mating options to boost your program to the next level. Can't go wrong with purebred pairs like these!

A pair of full sisters that are very similar but unique in their own right. The thing that comes to mind when you view H101 is dense. She features tremendous depth of body and width in a very easy fleshing package. She laid down and had a beautiful Lover Boy daughter that has high potential to pay for this pair. H110 is the feminine made stylish sister. She had a very rough start on life when she lost her recip mom, which affected her overall size but didn't affect her feed converting ability! She is doing a super job with her Right Now daughter. One thing for sure is that they are both very heavy milkers. #mymilkshakebringsallthekidstotheyard

The best way to describe Glitter N Gold? She's Marilyn in blue jeans with a touch of Jackie O. So elegant in her design and always has the utmost presence. You don't catch her having many bad days. Unfortunately, one of 13245 snowstorms we have had this year claimed her son...but the resident police chief had a purebred little boy left in a Safe Haven Box for her to meet. Boy moms are a different breed and she's decided to fully embrace foster mom life for Epic Mission. He's always thought of himself as an upgrade and is happy to be the purebred aspect for his new glorified half-blood mom. EXTREMELY cool show heifers are in her future! Order the Folltropin now!

And the choir stood and said "Praise Jesus for pelvic room!" If only all heifers could have had birth as easy as Nicole, it would make all of our lives much easier! Seriously competitive pair showmen need to take a hard look here. Nikki was part of the 2022 Res Pen of 3 Percentage Females in Oklahoma City and also made the trip to Denver. She's as sweet as they come and has the frame to run against the aged pairs. Nikki is also a half sister to the \$34,000 Erika Jayne that sold in this past years Jewels of the Northland. We always figured Pretty Little Stare would replace the infamous matriarch Stop And Stare in our program and with Nikki being the first daughter in production, we are sure excited for her future!! "We aren't trophy wives, we are lifetime achievement awards". These boss babe, peas in a pod sisters could easily have their own wine collection, real estate business, candle making company, and run the PTA all while being dressed to the 9s and handling it with ease. Not to mention their kids are CUTE! L100J is a real dazzler. She might wear the Yellowstone brand on her forehead but we thank God her mama is as kind as Monica doesn't act like Beth! Baby's A Stunner is Baby's a Knockouts natural and there's more than a few times her baby girl has made me stop and go "wooooeee!" during calf checks. Exquisite Baby is the most attentive, super strict mom who is hellbent to raise a respective gentleman. He follows mom's rules to the tee. Then there is GB – Gorgeous Baby J403 and she is where Bossman is cashing his ticket. Cut out their ear tags and good luck telling these girls apart, but Mark has a soft spot for this one. To be honest, we knew we couldn't give up all the genetics on a mating this perfectly uddered and consistent to make future purebreds. We will let you make the call if we chose the right one! Selling full possession and 50% embryo interest on HILB Gorgeous Baby J403.

The super gushy mom that loves baking cookies and decor word art. The one who has 'live laugh love' and 'you're the only one who knows what my heart sounds like from the inside' muraled on her son's bedroom wall. He will have fun explaining that one to future girlfriends. She's full of hugs and kisses for alllllllll the friends (2&4 legged) that come over to play. Seeing Her Right is affectionately known as Baby Vu to us and she's made more than a few Snapchat appearances when she felt my coat or pants were in need of cleaning. Baby Vu was a child star early in life, selling alongside her \$30,000 mother Déjà Vu in a past Passion For Perfection Sale to Foster Brother Farms, TX. She's developed into the same stunning image as her mother with the added data punch from Right Now. Master Moves is one of our favorite little dudes in the yard!

We all have that friend who is really super pretty (like her mom) and when you go to her house her mama is yellin' at her daddy to find her glasses, car keys, coffee cup and JC Penny gift card. "Carl's wife" loves cold cash, Hobby Lobby fabric sales and creamer in her coffee because she's classy. Successful motherhood may have chosen her at a later time than her girlfriends but she knows who's baby will win the next Toddlers and Tiara's pageant. We are going to be honest about these Need4Speeds...they don't suck. It's a phrase that's only saved for the real good ones around our place. If the cow doesn't convince you to Believe She'll Pay...her kiddo will! No coin shortage on this one!

Embracing motherhood at a more advanced age has made Believing N Her accept that kids will be kids and as long as her little man comes home for dinner after playing out in the yard all day, all is fine. Full parka only for the modest chick! Super shy about showing her near perfect ta tas on picture day that Private Trader always comes home for. We really like our Private Stock babies and he's a prime example. Amira sure partied hard the night this one was conceived. Thought she picked a good, conservative dude and then her doctor said she was having a girl! Perfect. After a solid decorating of an all pink nursery, baby time comes and we were all in for quite the surprise. It took both of us a hot minute to figure out what all went down in our "perfect" child plan but HE quickly won us both over with his adorable face and goofy personality. Kinslee won the comment of the night though by saying "well as cold as it is out, at least his socks will keep his footies warm!" Fair enough. Color truly doesn't matter anymore and his constant antics make us laugh even on the toughest of days. Amira is a flush sister to the \$30,000 HILB Varya J13B that topped last year's Jewels of the Northland and lit Perseverance sales on fire. Amira is halter broke and loved her bath prior to picture day. This would be a fun pair to drag around this summer!

Electric Gold is a real do it herself mama that shot out her tot in record time and had her hair scrubbed to perfection before we got a hospital room ready for her. As G-likes to promote, so many hits of 8543 in this mating, no wonder Electric Gleam is cool! Mama has bloomed so much since evicting her kiddo and we all agree out is better than in as cute as she is. Moderate framed pair here that sure to impress!

When your mom decides to be a groupie on EO's Farewell Tour, you get a pretty cool heifer out of the deal! Unfortunately, he tragically passed before the birth and those child support payments won't be making their way anytime soon. But, what he did give that daughter was fertility! Special Ruby bred up early and calved 2 full months before her 2nd birthday. She's a moderate, low maintenance female that's raising a fat Epic heifer calf. Can't go wrong with EO daughters! She will be a productive cow for any operation.

When we first saw this young stud last summer in Nebraska at the ET coop herd on his recip the first thing that came to mind was this pair could easily be on the next episode of I Love A Momma's Boy. She was so proud of him, nervous about him checking us out and if given the opportunity would care for his every need until he was at least 10 years old. Belmont was the anchor bull in our purebred pen in Denver and without a doubt the most asked about bull in our Denver display. You just don't find bulls very often with the lower quarter, stout hip and belly dragging center dimension Belmont possesses. From his unique physical attributes to his amazing personality and demeaner, this guy just hits you as a true STUD!!!

Here is the powerhouse and the stoutest featured of the Need 4 Speed sons. What sets this bull apart from most of the purebred Simmental bulls selling this spring is his massive middle and huge sweeping rib design. His dam, Be My Baby, owned with Kunzler Livestock, UT is a flush sister to the ST stud bull HILB Oracle. This guy has been a standout from a very early age and has led the pack from start to finish when it comes to performance. If you are looking to improve feed efficiency when it comes to a set of bulls, feeder cattle or future momma cows then be sure to check his Denver pen bull out on April 8th.

The youngest of the Need 4 Speed sons but when walking through the pen you would never know it. His momma is a larger that life sized Chestnut Knockout daughter that certainly got the added performance that Chestnut program hangs their hat on. This bull was weaned a little later last fall as he was in the pasture with the donors nursing babies that needed to keep their easy keeping mommas overweight conditions in check. In mid December we were analyzing Denver pen bulls and decided Total Speed certainly needed to make that trip. Come Denver time he took right to show bull life and truly enjoyed the extra attention.

One of the most anticipated flushes to hit the ground last spring was this mating. The first flush on the \$63,000 high selling female in Jewels sale to the new \$60,000 Werning bull we purchased with Hart Simmentals. One look at the pictures of these two and you will see we got everything we were hoping for and more. The look they possess is unmatched when it comes to purebred bulls. Extra frame size that is certain to translate to more pounds of calves come weaning time. Near perfect foot shape and rear leg design. Then grab the paperwork and it is as impressive as they are in person. 12 for calving ease, negative birth weight, good growth, 26 for maternal milk and a 141 API. Here is an opportunity to get in on some bulls that are sure to move a program progressively forward.

Turn N Burn is certainly a cool name for a Need 4 Speed son and very appropriate as he is going to turn some heads and burn an image in your mind of what a bull should look like. This bull is so flawless in his structure and that comes from both sides of the pedigree. Kind of surprised Amanda hasn't got the idea to keep this one and show him as a big bull because that idea has crossed my mind on numerous occasions. Great attitude, amazing hair and a look that will never go out of style. He reads calving ease and when you study his head and shoulder design it sure looks like he should be. Member of the 2023 Denver percentage pen of bulls.
