SATURDAY, APRIL 3, 2021 • 12 NOON • EXCELSIOR SPRINGS, MO

Welcome to our 10th Anniversary Sale Event!

We welcome you to our 10th annual production sale "The Gathering at Shoal Creek." We hope to see old friends and make new ones on the weekend of April the 3rd as we present our best at our Big Sale Event!

While the cattle are the focus of our industry, it is the people and the relationships formed that are at its heart. We would like to thank all of our past customers for their belief in our program, as well as our guest breeder RS&T Simmentals for joining us for the Gathering. Scott and John have joined us in the Gathering since the beginning and have been partners and friends for many years before. Along with their manager Bill Graebe, they continue to bring their best.

Every year we strive to assemble a set of cattle and genetics that appeal to producers on many different levels. Whether you are looking for unique breeding pieces, quality replacements, proven cows, your next herd sire, or elite frozen genetics we believe you can find an opportunity for success in this offering.

We have always believed in the value of cow families and the standout lots stem from the donors that we are building around. The SC Daisy Duke C1 donor highlights every female division of the sale! She brings three incredible fall heifer calves by OBCC CMFM Deplorabull, a massive March heifer by W/C Fort Knox, another powerful bred heifer by W/C Executive Order, and a front end Oracle daughter with her Up the Ante calf at side. The SC Shasha Z162 donor continues to make her presence known with an awesome fall heifer calf by Fort Knox, an Executive Order daughter in the fall bred group, and a red Reactor daughter bred to Fort Knox that is a highlight in the mature females.

Other special features this year include more embryos than we have ever offered from the front end donors. Our newest donor HILB Lost N Love E44G was a true performer in IVF and we have offerings from every mating we have worked her too, including Quantum Leap, Fort Knox, and Up the Ante. Speaking of Up the Ante, he was the high selling Currency son in the 2020 Ruby Cattle Co bull sale that we partnered with Purdue University on. Many of the pairs will have his first calves at side and the majority of the fall bred heifers are carrying his service. The bulls in the sale have all the work done on them. They have been genomic tested, passed their semen tests, come to you in an age advantaged package, and are ready to go to work. The opportunities for success this year run as deep through every division of The Gathering offering as ever.

As always visitors are welcome to preview the cattle prior to the sale. Videos for all of the lots will be available in the weeks prior to the sale. We hope you can join us Friday, April 2 for the pre-sale viewing and social as well as on Saturday, April 3 for The Gathering sale event. If you have any questions or need assistance don't hesitate to contact J.R. or one of our marketing reps, we'd be happy to assist you in any way.

Sincerely,

E

Introducing the three Deplorabulls... Better known around the barn as Melania, Ivanka and Kayleigh.

No need for a riot on the hill sale day, Colonel Shipman will make sure your bids are counted! Jokes aside, this year's offering of females out of SC Daisy Duke C1 is truly exciting in so many ways! Her daughters highlight every division of this year's sale with the three Deplorabull daughters leading the way as they are without a doubt the highest quality open heifers that we have produced yet from the SC Daisy Duke C1 donor. All three are so alluring on the profile with their striking look, from the way they tie in their neck high off their shoulder, to their attractive silhouette, bold center rib shape, and flexibility at the ground. Females with this amount of style and quality can be tough to find and even more difficult to make. Breeding pieces like these future donors can take a program to a new leve!!

The Executive Order x SC Robins Kiss D27 mating was the talk of the weekend at the 2020 Gathering when three full sisters averaged \$7,000! They highlighted the offering and topped both the open heifers and the pair division with a \$10,300 high seller that went to A&D Sulak Farms of Texas. The open heifers went in two directions, one to Hilbrands Cattle Co. in Minnesota and one to Owen Britten in Texas who successfully led his D27 daughter to Reserve Supreme Champion honors at the Tri State Fair and Rodeo in Amarillo. SC Robins Kiss H102 possesses the same style, balance, length and extension combined with a proven cow family. All the same success is possible again this year with H102!

The daughters of our red Milestone donor, SC Shasha Z162, have continually risen to the top and made the cut to walk the Gathering display pens. This year her natural calf by the Werning sensation W/C Fort Knox follows the same path and is sure to be a highlight in the fall heifer calf pens. Her added size and growth blends well with her long neck, smooth shoulder and deep center. Stunning looks from any angle! Meanwhile she balances a top 40% API with top 15% WW, 30% YW, and top 25% milk EPDs, not to mention she's as gentle as they come.

By this time the versatile ability of CDI Innovator to sire eye appealing cattle that excel in their EPD profiles is well proven. Combine that with the Akers Ruby 2184 cow family, a dose of Pays to Dream and a shot of HILB Oracle and you have a recipe for powerful genetics with the maternal ability to be productive and profitable for years to come. In the pen SC Ruby H106 reads with the angularity, skeletal design, and quality of an elite female, while she backs it up on paper with realistic expectations for CE and BW, and explosive growth through weaning and yearling with a set of EPD's sure to please breeders and PTP judges alike.

Wow! We could end the footnote there, but I would feel like I didn't do this one justice. This has to be the absolute biggest middled, stoutest made, most three dimensional purebred heifer we've had. She's huge hipped, wide topped and easy fleshing. Loaded with depth and rib shape from end to end and backed by the SC Daisy Duke C1 donor and the high selling W/C Fort Knox 609F! Performance, power and dimension will carry this one a long way when she hits production!

SC Daisy Lynn H8 marks the second Gathering sale heifer for SS/PRS Daisy Lynn 624A and she is a member of a growing list of females from 624A that are leaving a major impact here at Shoal Creek. H8 is a maternal sister to the SC Daisy Duke C1 donor, who's progeny highlight every division of the female offering this year. She's also a maternal sister to SC Daisy Lynn E13, the Champion Simmental Female at the 2018 Ozark Empire Fair who is working her way into the donor lineup. After seeing KCC1 Exclusive hit the scene, we knew we had to try this mating as soon as we could and we couldn't be more pleased with the results. Balance, eye appeal, power and productivity are bred into this one.

J.R. Rielling

An exciting selection of matings from our newest donor HILB Lost N Love E44G! She was our \$11,000 selection from Hilbrands Cattle Company in the 2020 Passion for Perfection and a full sister to their standout Denver Champion and leading donor HILB Crazy N Love A475S! These will be the first embryo offerings from her this year. Naturally we ran her to our newest herd sire Ruby NFF Up the Ante the first chance we got to prove out a fresh and new blend of genetics. The embryos by the now deceased and highly sought after Quantum Leap are full sisters in blood to Hilbrand's sale topping \$14,500 open heifer last spring that went to Sara Sullivan. The mating to W/C Fort Knox should be loaded with power and has the chance for a red one! Help yourself folks, never before have we opened the tank and offered this many matings on a female that we are this excited about!

Guaranteeing 1 pregnancy per package of 3 embryos if work is performed by a certified embryologist within one year of sale.

SC Daisy Duke C1

Not sure there is any better way to display the ability of a donor than to have her daughters rise to the top of every division in the sale! SC Daisy Duke C1 was competitive all along in the show ring and finished her career as the 2017 Champion Simmental Female of the Ozark Empire Fair and Champion Purebred Pair of the 2017 Missouri State Fair. She started ET work shortly after and we haven't looked back since. Her daughters in the sale by Executive Order and Deplorabull showcase her ability to work well with the 8543U influence, which is the main reason we ran an IVF cycle on her to the newest and most talked about Relentless son Something About Mary. Guaranteeing 1 pregnancy per package of 3 embryos if work is performed by a certified embryologist within one year of sale.

If it's not the red color that sets this one apart on sale day, it will definitely be her mass power, size and look. SC Shasha C152 is a full sister to a trio of red heifers that turned heads and had the bids flying at the Gathering in 2017. It's difficult enough to make black purebreds this good, let alone a red one this impressive. The new owners here won't have to wait long to put her to work, she's due to calve to W/C Fort Knox shortly after sale day and from what we are seeing there should be one of the most anticipated red purebred Al sires to hit the scene coming up this year!

As promised, the quality in the Daisy Duke family continues to shine in the spring calving division with this awesome daughter by HILB Oracle! We sampled Oracle early on and the only trouble is that we wish we had more of his daughters walking the pastures. He consistently stamps them with an attractive look, sound feet and legs, and quality udders. 281G fits that description nicely with the added body and brood cow traits from her powerful dam. She sells with a bull calf at side by our standout Currency son Ruby NFF Up the Ante 9171G.

Bold ribbed, powerfully built, and stout structured fit the description for SC Beautiful G1. She was always the rugged high performing heifer of the 2019 calves and she carries the growth predictors to back it up. Her dam is a super maternal and production oriented daughter of Grand Fortune from the HPF Beautiful S054 cow family from our friends the Bramlets in Illinois. G1 sells with her bull calf at side by Ruby NFF Up the Ante.

Limestone Lola W232

Powerfully built, yet still attractive and good fronted describe this Executive Order daughter from the Lola family well. She's a granddaughter of the Limestone Lola W232 donor whose genetics have been a feature for us as well as Owen Brothers, Circle M, and Red River Farms. All the work is done here, she sells with a heifer calf at side, one of the first sired by Ruby NFF Up the Ante 9171G, the standout Currency son we partnered with Purdue University to acquire this last spring.

#### PRC Looking Good T94

This female was Jordan's last bred and owned heifer at her last AJSA Classic in Louisville, KY, and man has she made an impressive mother. A picture perfect udder, big middle, good boned and sharp fronted first calf heifer to go with an impressive bull calf. Resulting bull calf combines the AJE Hopes Floats family with the T94 donor family on the dam side. Don't miss out on this awesome pair, its hard to make them like F104, but we are committed to bring our best.

The Gathering at Chu

1

Massive, powerful, big footed and impressive in her overall design is the best way to start describing C508. Hard to construct females like this, but RS&T Simmentals, LLC wanted to offer one of our best for the 2021 Gathering Sale. An own daughter of the famous CCF Sheza Bonnie Y61 and out of the consistent Mr NLC Upgrade U8676. C508 is the result of embryos we purchased from Dwight Cooper at a SimMagic event in Denver, CO. This 6 year old cow is in the prime of her life and as an added bonus has a baldy heifer calf sire by WS Pinnacle G24 that will set her new owners up for years to come. Her dam Sheza Bonnie was an incredible show heifer for CCF and an even more impressive donor with all of her progeny that have been successful for numerous breeders, help yourselves.

Donor feature female that we are extremely proud to offer at the 2021 Gathering Sale. We acquired 514B from Tom Rooney, IA and she a great show career winning the 2015 Missouri State Fair 4H % Show for Jordan Cowger. Her dam 0364 did an outstanding job prior to getting tragically lost due to a lightning strike before realizing her full potential. 0364 produced a high selling bred female at Bob Dwyers Foundation Female Sale and her granddaughter raised a high selling female at the Iowa Beef Expo. Broker daughters are excelling in the show ring and pasture for their owners and 514B has been IVF flushed only once producing well over 40 oocytes, we split the flush between Bankroll and Right Now, 5 calves at the cooperator herd. 514B is one impressive female standing down on huge feet, great bone. Impressive rib capacity and as you can see in the picture carries herself with a lot pizzaz. RS&T Simmentals, LLC is retaining 1/2 embryo interest in 514B, but wanted to work with a partner on an exciting future for both of our programs. This female has been under utilized to date and we look forward to working with our new partners on carving a big path toward great success. Selling full possession and 1/2 embryo interest.

Pasture Sire: SC Pay Off D110 from 6/5 to 7/24/20 Due Approx: 4/20/21 Est. Plan Mating EPDs: 13 1.5 81 115 .21 8 26 66 13 12.05

Carcass: 29.4 -.35 .10 -.07 .82 128 79

SA/SC Reactors Jewel is sired by the proven cow maker LLSF/ VLF Reactor A40 and traces back to several highly maternal sires including Goldmine, Brigade, and Dream On. She's an easy fleshing deep bodied female and is due to calve a few short weeks after the sale to our senior herd bull SC Pay Off D110, a Pays to Believe son out of a daughter of Double R Miss 29G T18.

When it came time to flush SC Daisy Duke C1, the Executive Order mating was one I had in mind for her for a while. I talk a lot about the focus on cow families and how we work to stack the deck with the ones that lead the way both in terms of look, predictability, and quality. The mating here to W/C Executive Order does just that, G108's picture speaks for itself. Sound, massive bodied, depth from end to end, and nearly a carbon copy of her mother's image. She sells AI bred to our up and coming herd sire Ruby NFF Up the Ante 9171G for an early September calf.

Bold centered, sound, and attractive, just the way we like them and just the way that SC Dreamy G121 is put together. She's sired by the \$240,000 KCC1 Exclusive and out of a full sister in blood to the two time Denver Champion SC Pay the Price C11. She's due up right on time in early September for a purebred calf by Ruby NFF Up the Ante 9171G. Buy with confidence as so far his first calves out of heifers this spring have all been unassisted and in the 70-80 lb range, just the way they should be.

Another favorite here from the Shasha family is this awesome fall bred heifer by the 2 time Denver Champion Pay the Price! She combines a lot of quality in one package. Attractive from the side, plenty of rib shape and depth, with a fluid structure to carry it all. Take note, her mother is SC Shasha C152 the powerhouse red purebred female that sells in this very same sale! To top it off, she's carrying a calf sired by the Werning sensation W/C Fort Knox 609F and has a chance to have a red baby at side this fall!

Wow! This baldy fall bred is something special and that does not even take into account her pedigree. Combining the JDJ Rich and Rare family and the awesome Ruby Rhythm 2124Z donor on the maternal side, makes this female a can't miss. G200's dam was successfully campaigned by my nephew, but he has moved onto other endeavors so this female was not shown, however she sure could have been. You want to produce those powerfully constructed heavy boned baldy bulls or breed her for show ring, this female has all the parts to make her new owners successful.

Attractive and sound best describe this Milestone daughter of the Owen Brother's Sadie cow family. Her first heifer calf was a member of the elite fall opens for The Gathering in 2018 while another daughter has been retained to work in the fall calving pasture at Shoal Creek. Her dam was the Champion bBred and Owned Female at the South Central Regionals and Champion Purebred at the Missouri State Fair in 2013. She sells Al bred to Gateway Follow Me F163. . The Gathering at

G105 is the Exclusive son that has set himself apart from the rest of the fall bulls from an early age. His massive shape, rugged structure, and true beef bull look make him the one that draws your attention. Even still with all the power that G105 possesses, he leaves a mark in the top 20% CE and BW, along with top 35% WW, top 20% TI and a top 35% API. Combine that with very favorable carcass genetic estimations, an 82 lb actual birthweight, and the largest scrotal circumference bull of the group this fall at 39.5cm and G105's future as a herd sire really begins to come into focus. Retaining 1/2 semen interest.

Built like a heifer bull, numbered like a heifer bull, yep, this one is definitely a heifer bull. Ready to sleep through calving season? This purebred son of Executive Order from the Robins Kiss cow family checks all those boxes with a top 10% CE, top 3% BW, and top 35% API and combines it with a sleek shoulder and smooth muscle pattern so you can sleep easy all night long. Retaining 1/2 semen interest.

The only blaze faced bull in the offering is SC Oracle G101. He's sired by HILB Oracle from yet another member of the dependable Ruby cow family line. Not just an awesome look on this purebred, he is definitely one to have marked as a potential heifer bull with a 77 lb. actual birthweight and a top 40% CE and top 25% BW EPDs. **Retaining 1/2 semen interest.**

Perhaps one of the better balanced individuals from both a phenotype and genetic standpoint in the Red Angus bulls this year is SC Fusion G525. He offers added substance, muscularity, and body and balances it with an attractive pattern and sound structure. He is also the highest CED bull of the group that still maintains well above average growth predictors. **Retaining 1/2 semen interest.**

. The Gathering at Ch

27

G528 is the dark featured rugged made bull of the group that reads with added muscularity and bone for a purebred Red Angus. He ranks in the top third of the breed for GM, WW, and YW and ranks in the top 9% for REA. He's one that could sure add some muscle and power to set of red cows. **Retaining 1/2 semen interest.**

Here's this year's only opportunity for a bull direct from our foundation Red Angus donor Windsong 0269. SC Firestorm G521 is backed by the powerful Mulberry daughter that continues to produce the kind of progeny that rise to the top each year. G521 is sired by the sought after and deceased PZC TMAS Firestorm that stamps his progeny with added power and look. While his pedigree doesn't allow for extreme EPD estimations, we can certainly admire the sensible balance that they maintain for calving ease, growth, and maternal ability. **Retaining 1/2 semen interest.**

G522 is the big bodied, easy fleshing bull of the group and the only son of the Genex stud 3SCC Domain A163 in the offering. His dam is a daughter of the past Solutions genetics standout SLGN Yardmaster 125Y out of our foundation Mulberry donor Windsong 0269. Top 3% for ProS and HB, top third of the breed in CED, WW and YW, he has a potential to service heifers and cows alike. **Retaining 1/2 semen interest.**

SC Wideload G520 is the last Wideload ET son of Windsong U28E, a full sister to 0269. We used the Wideload bull early and his influence continues to be seen with the buzz generated around his son, the Mann's Red Box 55C bull. G520 himself is a level topped smooth shouldered bull that is a candidate for use on both heifers and cows with a +14 CED, 62 lb actual BW, and top 25% or better EPD on both WW and YW. Videos will be available in the weeks leading up to April 3! **Retaining 1/2 semen interest.**
