

12TH ANNIVERSARY SALE EVENT

SATURDAY, APRIL 1, 2023 • 12 NOON • EXCELSIOR SPRINGS, MO

Welcome to our 12th Anniversary Sale Event!

WE WELCOME YOU TO OUR 12TH ANNUAL PRODUCTION SALE "The Gathering at Shoal Creek"

While the cattle industry is the reason for our gathering here at the ranch, it is the people and friendships we have formed over the years that are at its heart. We would personally like to thank all of our past customers for their belief in our program, as well as thanking our guest breeder, VAB Farms, for joining us for another year but also like to give a warm welcome to David Vest and his family as not only a guest breeder but also as the newest member of Shoal Creek.

This year is a very special and dear mile marker as our owners, Ed and Kathi Rule, as they celebrate not only forty years in the cattle business but also in the restaurant business with their beloved restaurant, Corner Cafe. They have shared genetics and recipes over the decades that have gained relationships in our area but also across the country. Shoal Creek has been a huge success in the Simmental business as well as supporters of our Simmental juniors and we can't wait to see where else they will take us in the future.

Year after year, we pick out the genetics and cattle that will appeal to our past and future customers before the calves even hit the ground. Whether you are looking for your next breeding piece, next herd sire, elite frozen genetics or your next show prospect, we truly believe that you can find your opportunity here at Shoal Creek. We have been working hard to present a unique but outstanding set of sale cattle. This year we, along with Purdue University, are offering a unique opportunity, as we are offering our senior herd sire, Ruby NFF Up The Ante. This is a chance to own a bull with power, stability, mass and incredible genetics. For the first time here at the ranch, we are offering offspring out of our new donor HILB Bliss G749E, owned with Hilbrands Cattle Co. This beautiful redhead donor has amazed us with what she brings to the table and we are ecstatic for all of our customers to share in the excitement as well. You will also see another set of calves and yearlings from our home raised donors, SC Daisy Duke C1 and SC Robins Kiss D27.

In the previous years, we have offered fall bred heifers and herd sire prospects out of our Red Angus herd but this year, we are delighted to be able to offer a selection of some of our best Red Angus cows but also a set of Red Angus fall open prospects. This set of attractive, open females goes back to our first Red Angus donor, Harmony's Windsong 0269, that has done nothing but grace our herd with quality and performance in her offspring. A select few of these fall opens are sired by the great Red Six Mile Parabellum 675G and they are not ones you want to miss out on.

As always, visitors are welcome to preview cattle any time prior to our sale. Our videos for every lot will be available within weeks prior to our sale. We hope you can all join us Friday, March 31st for the pre-viewing and social as well as on Saturday, April 1 for The Gathering Sale event. If you have any questions or need assistance, please don't hesitate to call Scott or David or any of our marketing reps, as we'd be happy to assist you in any way.

Sincerely,
The Shoal Creek Team

From Sale Management:

Welcome to the 12th "The Gathering" powered by Shoal Creek Land & Cattle!

It is always a pleasure for us to head to Excelsior Springs, MO to assist the team at Shoal Creek with this high quality spring sale and "gather" together for wonderful hospitality and fellowship.

Ed and Kathi Rule have been champions in the support of our youth and have once again selected an outstanding female right out of the heart of the fall show dolls to be auctioned off with the proceeds going to the Missouri Junior Association to assist with the American Junior Simmental Regional events. The AJSA regionals is an event that not only highlights our Juniors in the showing but host a number of educational events to give our youth the tools to succeed in their careers in the future. SC Black Widow K107 is a Quantum Leap daughter out of the beautiful HILB/SHER G749E, she has the stellar attributes from both side of the family tree. Take this doll home and have a genetic gem in your program.

For this 12th anniversary sale, digging deep into the herd was a requirement not an option. Quality is priority, and this offering is rising to the occasion so please study your lesson well, watch the videos and give this team a call. You will be glad you did!

The Shoal Creek team has a new member this year as we welcome David Vest. We know his enthusiasm for the Simmental and Red Angus breeds will be a wonderful addition to the Shoal Creek program. A big shout out to JR and Crystal for their years at Shoal Creek and wish you both the best with the next chapter of your future.

Please accept this as your personal invitation to join Ed & Kathi as this year marks the 40th year they have been in the cattle business and the 40th year in the restaurant business. If it is at the sale or at the Corner Café, hospitality runs deep and you will always enjoy a fantastic meal. Come early, make breed advancing purchases and power forward your program.

Hope to see you April 1st!

Sincerely,

Val & Lori Eberspacher

Donation

Over the years, Ed and Kathi Rule have been huge sponsors to our Missouri Junior Simmental members and we all here at Shoal Creek are honored to sell this female today to benefit the future of our industry. SC Black Widow is hands down one of our favorite fall open female offerings this year and it was an easy decision to use this female as our donation. K107 brings you the style, the power, and the quality to grow your herd. She has the genetic back line to go on and do great things whether it's hitting that backdrop this summer or to be one of your next top females.

We couldn't decide between the beautiful red head and the super powerful black full sisters. K107 will sell as a donation lot this year. Sired by Quantum Leap who has left his mark on the industry and needs no introduction with both sons and daughters commanding high dollars across the country and finding their way to the backdrop and donor pens for many of the top breeders in the country. G749E was our selection from Hilbrands Simmentals in MN, she is an elegant red Executive Order daughter we have fallen in love with in terms of her ability to be a consistent producer. K104 is what this mating is all about, a red heifer with the quality and substance that is desired in the show ring backed by the cow power from G749E. She is the type that is sought after across the country.

Another set of full sisters that offer a lot of the same qualities, these females are an exciting offering with a lot of looks and substance, maintaining power and a soft hair coat. Their Angus sire Gateway Follow Me has impacted multiple breeds in a half blood situation, he's the style and splash to D27s power and predictability. D27 is nothing but a producer, she is one of the top and most consistent donors at Shoal Creek. With a pedigree like hers, it's easy to see backed by cows like LLSF Robins Kiss and her dam Rockin Robin with the immortal Pays to Dream. You can't go wrong with K119 and K124, the only choice left is when to stop the bidding.

Here is a long body good hipped heifer with a lot of future. She gives a lot of options moving forward between the show ring and the donor pen. K114 is out of Vantage Point which gives the calving ease and growth that is needed in today's world of production but also has a beautiful Pay the Price mother that is quick gaining the attention of us here on the ranch. Raising bulls or adding a female to create replacements, this heifer can do it. Power in the blood here either way you go, K114 can take you there.

WOW K125 is one cool momma. Looks for days one of the greener Simmentals in the offering this year but a lot of future. K125 is the stoutest female to come along in a while with the hip shape and length of spine to add to her deep rib cage. Lots of pedigree here with Exclusive, Executive Order, Lock and Load, and the Donna family from Sandeen's so much consistency and profitability in this pedigree. Many Donna females have been working for Shoal Creek and our customers over the years. K125 might be the bargain come April 1st.

A great pair of sisters to lead off our Red Angus heifer offering. Their dam (the now deceased) 0269 does the job year in and year out and has a lasting legacy at the ranch with her beautiful daughters like K508 and K521. Half brothers by Hard Drive sold to Lacy's Red Angus and the MC Livestock of MO last year and they are in love and can't wait to get calves on the ground. These Franchise daughters are feminine in their design with a good set of feet and legs, good hip and long spine. They have long front ends and good hair for the show ring appeal. I love these heifers for the offering of production and backdrop potential. Get on board the 0269 females are limited and they are flat good.

Looking for a high quality replacement female to make bulls? You have found her. Collusion is a bull that stamps his progeny with the power and punch needed to make the top end genetics. K506 will show as well, having the look and style to be an excellent project for a junior, while giving them the cow base to build around. This female is the kind you'll be glad you own at the end of the day.

This is a heifer that offers the front size and looks needed to compete in the show ring. Sired by the Elite Parabellum, you can see why. Parabellums have been grabbing banners and high selling honors around the country. This heifer offers something a little different in the pedigree department with a good uddered female from Lacy's but gives all you could ask for in her looks from her dominant sire.

Starting off the sale with a beautiful purebred red female out of E44G. She is one of the biggest topped long spined females in this year's offering. Don't let her good looks fool you, there is power in the blood with this one. E44G is a Broker female we purchased from Hilbrands, MN, she has done nothing but impress each and every calf crop. This is the second Fort Knox female we have sold out of E44G with the first Fort Knox daughter J33, a full sib to K9, sold for \$5,000 to the Day Family in Marshfield, MO at the Missouri State Simmental sale in November of 2022, this is a testament to E44Gs consistent productivity. K9, much like her full sister, is a female with a future at the backdrop that translates very well into the front pasture donor kind. The Red Wave is here, don't let the opportunity to get a good red female to add to your herd slip by on April 1st.

This is a little different pedigree that is exciting in its own right not to mention her look and overall eye appeal. Take a look at her numbers as well, top 10% for weaning along with 20% for yearling, that's enough to get anyone excited. Her numbers along with a calf sired by Right Now will be off the charts. Find J36 on sale day and be ready to own her.

Big wide body daughter of the donor Donna 4532 sired by the consistent Executive Order. F15 is a young female that is hard to part with but as they say, we are offering our best. We have kept her first and only heifer back after she has sold two bulls to our many time bull buyers. Here is a female you can build around or add to an established herd.

What an opportunity to invest in a pedigree like this. Neither sire or dam need any introduction to the Simmental breed. Steel Force has left his mark all over the breed and Urababydoll has been a matriarch donor for Lee Simmentals. This white faced female has given us many replacements and we wanted to offer her to you so you can add an impactful female to your herd.

A great young female that comes from the Lacy program and goes back to Independence and the great Lana cow family that works so well for Lacys. That mating to SC Hard Drive the direct son of Bieber Hard Drive and 0269 that Lacy's own half interest could result in a fantastic calf that we would love to see. Sleeper of the sale here!

AI Sire: SC Harddrive on 12/2/22

Up The Ante as a yearling

A once in a lifetime opportunity to purchase a herd sire Up the Ante 9171G, this sire has done more for Shoal Creek than any other. With the amount of females he has left us, it was time for us to part with this incredible bull. Take a look at this mature sire and you will see the long spine, depth of body, and bone he possesses, he will translate that to his progeny. He has 105 registered progeny with the ASA and many more to come.

Multiple daughters are highlighted in this offering to showcase Up The Ante prodigy. K22 is a spring open show heifer prospect to show his ability to create the flash and style. J142 is a fall bred heifer from the donor C1 she has multiple sisters in the herd. These daughters milk well and possess the ability to raise big calves. All of Up The Ante's progeny have good sound feet with correct structure for longevity.

Up the Ante was purchased from Ruby Cattle Company and is backed by one of their best cow families, The Rhythm cow family that has produced many top sellers for them over the years. Along with Rhythm cow family, he's also combines the power and profitability of Currency who is consistently making the mark across the breed. Up the Ante is a bull that will have an instant impact in anyone's herd, don't miss out on this opportunity to own this herd sire. **Selling full possession and 2/3 semen interest.**

Shoal Creek retaining 1/3 semen interest in all bulls selling.

SC Pay in Gold J111 has been a favorite here at the ranch since the day he hit the ground. We all greatly appreciate the movement and looks of this bull. He is very clean fronted, well balanced, and just a powerful piece. He is backed by powerhouses of genetics, being out of a SC Pays to Price daughter and sired by the great Fort Knox. His maternal granddam, a High Voltage daughter, was the 2013 MSF Reserve Champion Open Simmental Female, won both her divisions at the American Royal the same year and was in the Top Twenty Bred & Owned at the 2013 & 2014 AJSA Junior Nationals. This is a bull that you will not want to miss out on.

This bull has gotten a lot of attention since the day he was born. A powerful good looking son of Pay the Price backed by a beautiful Relentless mother that is quickly making her way to the top of the cow herd here at Shoal Creek. His mother E1 has sold heifers in each of the last two Gathering Sales and the buyers just loved them for their maternal ability. J124 is a true herd bull that needs to be in a purebred herd producing show heifers and herdsire prospects.

A bull that has it all. This Fort Knox son is an absolute beast, deep, long, and powerful. Did I mention, he's a red baldy and backed by one of the best Pay the Price cows around. You can go wrong with a bull of the quality and pedigree. It's a shame he missed the picture day but be sure to check out the video, he's a stud and will do great things in any herd. The red genetics are commanding top dollar around the industry in the seed stock and commercial markets so find J132 on sale day.

Bull Buyer's Guide

EXPLANATION OF HOW TO UTILIZE API AND TI INDEXES

First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described to the left, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a \$50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For more information, visit www.simmental.org.

DEFINITIONS OF TERMS

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels.

Back Fat (BF): Inches of backfat.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning wt. due to milk.

Marbling (MRB): Marbling score.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario.

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score.

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario.

Average Daily Gain (ADG): postweaning rate of gain.

Docility (DOC): Percentage of offspring receiving a disposition score of 1 (docile).

Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario.

Here comes an W/C Executive Order son that we purchased half interest in from Lees Simmental Farms. This bull is full of power and mass, and we are ecstatic to add him to our herd sire program. Check his calves out later this fall when they start hitting the ground, including a select few mature, bred cows bred to this young bull that we are selling here at our big event.

This young, baldy bull is our newest addition to our herd sire program that we purchased from River Creek Farms that is sired by the \$75,000 bull, KBHR Revolution H071, owned by Schooley Cattle Company and River Creek Farms. We are excited to see the things this Revolution son will do to our herd with his appearance, smoothness and power he gets from his sire.
